| 5 Maternal mortality rates per 1,000 live births | 30 |
| 6 Infant mortality rates per 1,000 live births | 34 |

GENERAL NOTES

The figures contained in this Report may be regarded as superseding the provisional figures already published for the year 1974 in the Registrar General's quarterly returns.

Throughout the Report, births and deaths have been recorded according to date of registration and not to date of occurrence. They have also been allocated to the district of normal residence, if in Northern Ireland; births have been assigned to the districts containing the normal residence of parents, and deaths to the districts containing the normal residence of the deceased persons. Events occurring in Northern Ireland relating to persons whose normal residence is outside Northern Ireland have been assigned to the district of occurrence.

Rates are assessed per 1,000 of the estimated home population as at 30 June unless otherwise stated. The home population comprises the population of all types in Northern Ireland including Her Majesty's forces. Marriage rates relate to the number of marriages solemnised, and not to the number of persons married.

Comparisons with rates (births, deaths etc.) recorded in other parts of the British Isles are included in several tables and diagrams. These comparisons are substantially correct but it should be remembered that (with the exception of Diagram 3) they are crude rates only and take no account of changes in, or differences between, the age and sex structure of the populations.

Generally speaking, the classifications adopted for the purposes of this Report are the detailed and Abbreviated Lists contained in the "Manual of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1965."

The term cancer, where used, refers to all malignant neoplasms and neoplasms of the lymphatic and haematopoietic tissues, except Hodgkin's disease, leukaemia and aleukaemia (I.C.D. Nos 201, 204-207).

Where more than one cause of death is reported, the death is classified according to the underlying cause, i.e. the disease or injury which initiated the train of morbid events leading directly to death. This method of classification is followed even if the deceased may have recovered from the underlying cause long before the date of death.

In the text and tables the term "stillbirth" refers to a child born after the 28th week of pregnancy and which did not breathe or show any other sign of life. Perinatal deaths are deaths of infants under one week and also includes still-births; "neonatal mortality" relates to deaths of children under 4 weeks of age and infant "mortality" to deaths of all children (including neonatal) under 1 year of age.

In general in the tables and abstracts, dots (.) are used to indicate "none" and dashes (—) are used to indicate that information cannot be given or that the headings are not applicable.

The following tables and abstracts have been introduced in this years report:—

Tables: D Marriages, mean ages at marriage, men and women by previous marital status.

- E1 Legitimate live births by age of mother.
- E2 Multiple births by age of mother, sex and type.
- F1 Live and still births by place of occurrence and district council area.
- F3 Illegitimate live births by age of mother.

- Abstracts:
- 7a Marriage by age of bachelors by age of spinsters.
 - 8a Legitimate live births by sex and by age of mother and father.
 - 8b(i) Legitimate live births by sex, age of mother, and parity.
 - (ii) Legitimate live births by sex, age of mother and previous live born children.
 - 8c Legitimate live births by age of mother and live birth order.
 - 8d Legitimate live births by sex, age of mother and duration of marriage.
 - 8e Live and still-births by sex, legitimacy and age of mother.
 - 10a Still-births by sex, age of mother and parity.
 - 10b Still-births by sex, cause and weight of foetus.
 - 12a Deaths by sex, cause and place of occurrence.

Tables formerly showing the old rural and urban districts now show the 26 new district council areas.

REPORT 1974

SUMMARY

The birth, death and marriage rates were all lower than in 1973; the still birth rate however was slightly higher and the number of illegitimate live births increased by .7% of total live births.

The following figures indicate the general trend of marriages, births and deaths over the past 30 years. More detailed comparisons will be found in Tables A and A1.

Table B shows comparative statistics for Northern Ireland, England and Wales, Scotland and the Irish Republic. The marriage rate in Northern Ireland was lower than in any of the other countries. The live birth rate was lower than that of the Irish Republic but higher than that of England, Wales and Scotland; the death rate was lowest in Northern Ireland and the Irish Republic.

In the last decade the number of live births per 1,000 of the population has fallen slightly, except in the Irish Republic. Since 1961 the death rate has been lowest in Northern Ireland.

POPULATION

The home population of Northern Ireland estimated as at 30 June 1974 was 1,546,800 persons, a decrease of 300 from the mid 1973 figure. This estimate, comprising civilians and members of H.M. forces stationed in Northern Ireland, is based on the census taken on 25 April, 1971 (1,536,065 persons) and takes account of natural increase and net migration. During the year ended 30 June 1974, the natural increase of 11,100 (approx.) was off-set by net migration of 11,000 (approx.). Further details regarding migration are shown on pages 42 and 43.

The total population is further analysed by sex and age in Table C1.

Table C shows the population of the 26 District Council areas.

TABLE C. Population of 26 District Council Areas as recorded at the census of 1971 and as estimated at mid-year 1974.

sheet

The 1971 Census population by age and sex for Northern Ireland and for District Council Areas is given in Abstract 1.

MARRIAGES

All
data
obtained
from
computer
tabulations

Number and rate Marriages registered during the year numbered 10,783 giving a rate of 6.97 per 1,000 population. The corresponding number and rate for 1973 were 11,212 and 7.25 respectively. In 10,087 (93.5 per cent.) of the total marriages both contracting parties were single; in 327 (3.0 per cent.) one or both were widowed and in 429 (3.9 per cent.) one or both were divorced. Of every 1,000 persons married, 22 were previously divorced. This rate is 2 above that for 1973; comparative rates for the years 1964 and 1954 were 7 and 6 respectively. Further details are given in Abstracts 3 and 6.

The number of marriages celebrated in each month in 1974 was as follows:

| | | | | | | | |
|------------|---------|-------|---------|-----------|---------|----------|---------|
| January | : 493 | April | : 1,095 | July | : 1,234 | October | : 787 |
| February | : 523 | May | : 612 | August | : 1,527 | November | : 597 |
| March | : 720 | June | : 1,153 | September | : 1,446 | December | : 596 |
| Qtrs.: 1st | : 1,736 | 2nd | : 2,860 | 3rd | : 4,207 | 4th | : 1,980 |

This shows that the period July to September was the most popular quarter for weddings, August heading the monthly totals with 1,527. January was the least popular month.

Ages at marriage Although the most popular age for marriage was 22 years for men and 21 years for women, the arithmetical average age of men marrying in 1974 was 25.3 and of women 23.2. During 1973 this age was 25.6 among men and 23.3 among women. In 1964 the average age was 27.3 for men and 24.6 for women. The mean age at marriage of persons marrying for the first time in 1974 was 24.4 years for men and 22.4 years for women. Of the contracting parties 1.1 per cent. of the husbands and 7.2 per cent. of the wives were minors (the age of majority was lowered from 21 to 18 from 1 January 1970) the relative figures for 1964 being 11.8 per cent. and 29.9 per cent. Further statistics will be found in Table D and Abstracts 4, 5, 6, 7 and 7a.

Method of celebration Table D1 shows the marriages registered during the years 1927, 1937, 1951, 1961, 1966 and 1970 to 1974 according to the form of celebration and Table D2 gives further details of marriages in 1974.

Marriages taking place in registrars' offices in the year under review represented 7.4 per cent. of the total marriages which is the same as that for the previous year.

- * 1. Bachelors who married spinsters - from Abs 3.

$$= \frac{10087 \times 100}{10783} = 93.5$$
2. Widowed - Total of Bachelors + widows
 Abs 3 widowers + widows + divorced men + widows = 327.
3. Abs 3. Total divorced men = 251
 + Total divorced women = 231

$$\underline{482}$$

$$\frac{482 \times 1000}{10783 \times 2} = 22.3 \text{ per 1000}$$

8

* This gives rate per 1000 persons married NOT marriages.

DIAGRAM 2. Birth rates (crude) in Northern Ireland, England and Wales, Scotland and the Irish Republic, 1952-1974.
Rate per 1,000 population.

FERTILITY LIVE BIRTHS

Number and rate Live births registered during 1974 numbered 27,160, 2,040 fewer than in 1973. The birth rate was 17.6 per 1,000 of the estimated population, being 1.3 below the rate for 1973.

The monthly incidence of births was as follows:

| | | | |
|------------------------|-------------------|-----------------------|----------------------|
| January . . . 2,732 | April . . . 2,351 | July . . . 2,514 | October . . . 2,403 |

GRO
Quarterly
to tabs.
(see
comparative
quarterly
file)

Compared with 1973, each of the four quarters showed decreases of 426, 530, 558 and 526 respectively.

Births registered during 1974, where the normal residence of the parents was outside Northern Ireland, numbered 100 as compared with 128 in 1973. In 63 cases an address in the Irish Republic was given, and of these, 62 births occurred in hospitals: the 1973 figures were 70 and 69 respectively.

Computer
tabulation

Proportion of males to females Births of males in Northern Ireland in 1974 numbered 13,987 and those of females 13,173, the proportion of male to female births being 1,062 to 1,000. The corresponding proportions for each of the five years 1969-73 were 1,049, 1,064, 1,081, 1,078 and 1,079 respectively.

"

Age of Parents Table E1 classifies legitimate live births according to the age of the mother. The maternal age-group which contributed the greatest number of live births was the group aged 25-29.

"

Abstract 8a shows the legitimate live births by sex and by age of mother and father. Abstract 8b(1) shows legitimate live births by sex, age of mother and parity.

8b(ii) Legitimate live births by sex, age of mother and previous live born children.

Abstract 8c shows live births by age of mother and live birth order and Abstract 8d legitimate live births by sex, age of mother and duration of marriage.

Place of Occurrence Of all live births 99.1 per cent. occurred in hospitals.

"

Multiple births Up to and including 1960, the birth of one live and one still-born infant was regarded as a single birth and the birth of two live infants and one still-born infant as a twin birth. Since 1961 still-births have been registered and these are now being taken into account to obtain accurate figures for single and multiple births. Of the 27,160 live births, 26,586 were the product of single, 567 of twin and 7 of triple pregnancy. There were no quadruple pregnancies. Table E2 gives the multiplicity of all births.

STILL-BIRTHS

Number and rate The number of still-births registered in 1974 was 374 giving a rate of 14 per 1,000 births (live and still). Comparative 1974 figures in England and Wales and Scotland were 7,175 and 11 and 846 and 12 respectively.

Computer Abstract 11 shows the number of still-births in administrative areas by **Tabulations** sex. The number of still-born children who would have been illegitimate had they been born alive was 21 representing 5.6 per cent. of all still-births. Seventeen of the still-births were the product of multiple confinements further particulars of which will be found in Table E2 above. In 265 cases the births occurred after a period of less than 37 weeks gestation or the weight of the foetus was not more than 5½ lbs. Of the 374 still-births 312 were certified by doctors, 62 by mid-wives and none by coroners. Post-mortem examinations were held in 49 cases. Abstract 10 shows still-births by cause, sex and period of gestation. The percentage of still-births which occurred in hospitals in 1974 was 99.5 compared with 97.4 per cent. in 1973.

Tabulation

Illegitimate births The number of illegitimate births was 1,296. This was 101 more than in 1973. The proportion to total live births (4.55 per cent.) was 0.46 above that for the previous year. In England and Wales, Scotland and the Irish Republic, the illegitimate births as percentages of the total live births in the year 1974 were (provisionally) 8.8, 9.1 and 3.3 respectively. Table F3 shows illegitimate live births by age of mother and reveals that illegitimacy is highest among women aged under 20.

DEATHS

Number and rate The number of deaths recorded during the year 1974 and the death rate per 1,000 of the population were 17,327 and 11.2 respectively. The comparable figures for 1973 were 17,669 and 11.4.

The monthly incidence of deaths was as follows:

Computer
Tabulations

| | | | | | | | |
|--------------|-------|---------|-------|-------------|-------|------------|-------|
| January . | 1,672 | April . | 1,685 | July . | 1,339 | October . | 1,416 |

| Qtrs.: 1st . | 4,772 | 2nd . | 4,252 | 3rd . | 3,727 | 4th . | 4,576 |

Of the total deaths 9,226 were of males and 8,101 were of females, the equivalent annual death rates being 12.0 and 10.4 per 1,000 of the male and female estimated populations, respectively. The corresponding rates for 1973 were 12.1 and 10.7.

According to the ages stated to registrars, 676 (3.9 per cent.) of the total deaths were of children under 5 years of age and 11,949 (68.9 per cent.) were of persons aged 65 and upwards. There were 181 deaths of persons (59 males and 122 females) aged 95 and upwards and this number included 2 males and 3 females at 100, 1 female at 101, 8 females at 102 and 2 females at 103.

Table G gives a partial analysis of deaths by age for each sex and the percentage of the total deaths in each group.

Computer
Tabulation

Cause of death Where more than one cause of death is reported the death is classified to the underlying cause, i.e. the starting point in the sequence of events leading to death. See General Notes on page 1.

Proportion of deaths from principal causes Heart diseases continued to bear by far the greatest proportion of the total deaths; other diseases having a high proportion were cancer, cerebrovascular disease (mainly cerebral thrombosis and cerebral haemorrhage) and respiratory diseases.

See Abs 12
to obtain
details

At ages under one year congenital malformations, premature birth, and pneumonia were the principal causes of death.

Between the ages of one and ten the highest proportions were caused by accidents, congenital malformations, cancer, Hodgkin's disease and leukaemia and pneumonia.

Between the ages of ten and twenty-four, accidents caused by far the largest proportion of deaths. The proportions from cancer, congenital malformations and Hodgkin's disease and leukaemia were also high.

Between the ages of twenty-five and forty-four the principal causes were cancer, heart diseases, accidents, suicide and cerebrovascular disease.

From age forty-five the pattern was heart diseases followed by cancer, cerebrovascular disease and respiratory diseases.

Table K shows, for each of the principal causes, the numbers of deaths and the death rates for each year since 1971.

Deaths from the principal epidemic diseases A total of 102 deaths (0.06 per 1,000 population) fell within this group. Of these, 87 were caused by influenza, 14 by diarrhoeal diseases of children under 2 years of age, 1 by whooping cough and 1 acute polio-myelitis. No deaths resulted from the other diseases comprising this group, viz., diphtheria, smallpox, typhus, typhoid fever, scarlet fever, paratyphoid fever, and measles.

The number of deaths from the principal epidemic diseases in 1973 was 161 and the relative rate was 0.10.

The notifications of certain infectious diseases for each administrative area in Northern Ireland for the year 1974 are shown in Abstract 31, and the diseases named are those laid down by regulations (issued by the Department of Health and Social Services) as compulsorily notifiable throughout Northern Ireland.

DB-474 Abs 12
Influenza There were 87 deaths from influenza in 1974 as against a total of 139 in 1973. The relative rates per 1,000 of the population were 0.06 (1974) and 0.09 (1973).

010-019 Abs 12
Tuberculosis Deaths from this cause numbered 56 compared with 66 in 1973. The rate of 0.04 per 1,000 population is the same as that for 1973. Further details of comparable figures over the past years may be seen at a glance in Table L.

The tuberculosis death rates (provisional) for England and Wales, Scotland and the Irish Republic in 1974 were 0.03, 0.04 and 0.04 respectively. More detailed information about deaths from tuberculosis is given in Abstracts 12 and 17.

Cancer* The number of deaths from cancer in Northern Ireland during 1974 was 2,790 giving a death rate of 1.80 per 1,000 of the population which is 0.02 below the rate for 1973.

The death rates from cancer and tuberculosis were roughly the same in 1931 (i.e. 1.26 for cancer and 1.23 for tuberculosis). Since then the cancer rate has increased by 42.9 per cent. and the tuberculosis rate has decreased by 96.7 per cent.

Abs 12.

104

As will be seen from Abstract 12 the most frequent sites of fatal cancer among males during the year were bronchus and lungs, 475; stomach, 179; intestines, 146; prostate, 139; rectum, 99 and pancreas, 77. Among females the most frequent sites were breast, 251; intestines, 206; stomach, 146; bronchus and lungs, 105; pancreas 65; rectum 62 and ovary, fallopian tube and broad ligament 68.

For many years cancer of the stomach proved to be the most frequent site of fatal cancer for both sexes and it remained so among females up to 1961 when it took second place to cancer of the breast. Since 1954 however, cancer of the lung has been more prevalent among males. The number of male deaths from this cause increased each year since 1945, with the exception of eight years in each of which there was a slight decrease compared with the year immediately preceding.

Table M1 shows the numbers and rates of lung cancer deaths by sex for the past ten years. Abstract 12 gives particulars regarding the cancer sites by sex and age-groups and Abstracts 11, 17 and 21 give details of cancer incidence in administrative areas.

TABLE M1. Northern Ireland: Deaths and death rates from lung cancer, 1965-1974.

Cerebral haemorrhage, apoplexy, etc. The deaths assigned to this group (described as "cerebrovascular disease") numbered 2,473 giving a rate of 1.60 per 1,000 of the population. This rate is 0.04 below the rate for 1973, and is 0.01 below the average rate for the period 1969-1973. The rate per 1,000 of the male population was 1.33 whilst the female rate was 1.86. Details of deaths in this group by ages are shown in Abstract 12.

Of the total number of deaths from heart diseases, 4713, (79.5 per cent.) were in the group known as ischaemic heart disease which includes coronary disease. Chronic rheumatic heart disease accounted for 125 (2.1 per cent.), hypertensive heart disease for 89 (1.5 per cent.) and other forms of heart disease for 1,004 (16.9 per cent.) of all deaths from heart diseases.

402 + 404

I.C.D. numbers 393-398, 402, 404, 410-414 and 420-429 as shown in Abstract 12 give the age and sex breakdown of all deaths from heart diseases.

print out

Bronchitis The deaths from bronchitis during the year numbered 783, giving a rate of 0.51 per 1,000 of the population, which is 0.1 above the rate for 1973. Bronchitis was also an important contributory factor in 438 deaths though not related to the condition taken to have initiated the sequence of events leading to death.

- 480 - 486

Pneumonia Deaths from pneumonia numbered 1,125 during the year 1974, the rate of 0.73 per 1,000 of the population being 0.05 above the rate for 1973. The average rate for the five years 1969-1973 was 0.55.

Pregnancy and childbirth The mortality of women during pregnancy and childbirth is classified under two headings, namely—(1) deliveries and complications of pregnancy, childbirth and the puerperium and (2) deaths with mention of pregnancy, childbirth and the puerperium but not classified as maternal. The causes of death shown in detailed list numbers 630-678 of Abstract 12 are those to which the former group were assigned, and Table O below gives details of the latter group.

- 630 - 678 file 75 349

There were 6 deaths from diseases of pregnancy, childbirth and the puerperal state in 1974 giving a rate of 0.22 per 1,000 births (live and still). There were 5 such deaths in 1973.

The 3 deaths shown in Table O gave a rate of 0.11 per 1,000 births (live and still) compared with 0.13 the previous year. It should be noted that there is no connection in these cases between the underlying causes shown and the maternal condition coincidentally present.

TABLE O. Northern Ireland: Deaths in which maternal conditions were coincidentally present 1974.

† Rate per 1,000 live births for years 1926-60.. The rates from 1961 are per 1,000 total births (live and still).

Infant mortality Deaths of infants under 1 year of age numbered 567 or 21 per 1,000 live births registered. This rate is the same as that for the previous year. Of these deaths, 295 were of males and 272 of females, the former number being equivalent to 21 per 1,000 live births of males and the latter to 21 per 1,000 live births of females. The corresponding rates for 1973 were 23 and 19 respectively. In 1974 the provisional infant mortality rate in England and Wales was 16, in Scotland 19 and in the Irish Republic 17. Comparative figures for previous years are shown in Table B on page 5.

Ats 24

DIAGRAM 5. Maternal mortality rates (crude) in Northern Ireland, England and Wales, Scotland and the Irish Republic, 1952-74. Rate per 1,000 live births.

Neonatal mortality Deaths of infants aged under four weeks numbered 375 representing a rate of 14 per 1,000 live births. This is equivalent to 65.6 per cent of all deaths of children under 1 year of age. The corresponding figures for 1973 were 425, 14 and 69.7 per cent. respectively. The 1974 rates for England and Wales, Scotland and the Irish Republic were (provisionally) 11, 13 and 11 respectively. *Abs 24*

Ab's 24 & Ab's 11

To cover 5 year period

Abstract 11 gives the number of infant deaths, together with the number of births, for each of the 26 District Council areas in Northern Ireland.

Abstract 22 gives the number of deaths of children under 1 year of age for Northern Ireland by District Council areas for the year 1974; the numbers are given by sex and age-groups.

The number of infant deaths for 1974 by age and cause of death are given in Abstract 24, together with the infant mortality rates by cause.

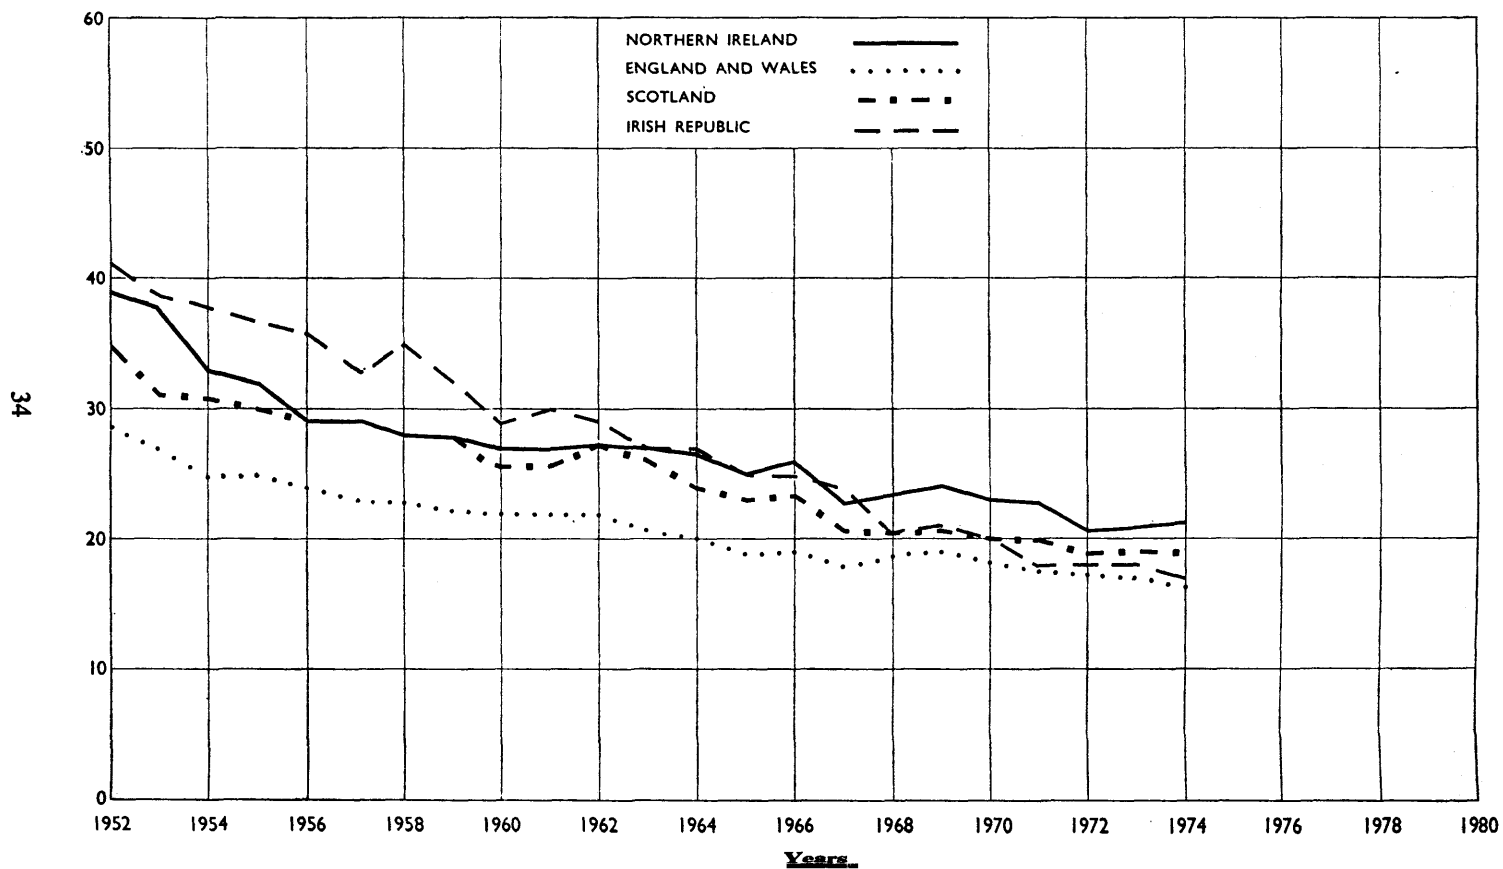

Mortality among illegitimate children Deaths of illegitimate children under 1 year of age numbered 18 in 1974, which is equivalent to a rate of 14 per 1,000 of the illegitimate live births registered and is 14 below the rate for the previous year. The corresponding rates for legitimate children in 1973 and 1974 was 21 per 1,000 legitimate live births. *Ab's 23.*

Deaths of illegitimate infants aged under four weeks (illegitimate neonatal mortality) numbered 15, representing 83.3 per cent. of the total deaths of all illegitimate children under 1 year of age. The corresponding figures for 1973 were 21 and 63.6 per cent. respectively. *Ab's 23.*

Abstract 23 shows the number of deaths of illegitimate children under 1 year of age for Northern Ireland by District Council areas; the sex and age distribution is also shown.

Abstract 24 gives the number of deaths and mortality rates of illegitimate children under 1 year of age by cause.

Violent deaths Deaths from causes other than natural causes are termed violent deaths and are classified according to both the external circumstances giving rise to injury, expressed as the "external cause of injury" and to the nature of the injury sustained, designated as the "nature of injury" (see Abstract 19).

The number of deaths ascribed to violence during the year was 1,128 (774 males and 354 females) which is 100 fewer than the number registered in 1973, and is equivalent to 6.5 per cent. of the total deaths registered. -Table 8

Last 5 years

TABLE S. Northern Ireland: Violent deaths by external cause of injury, 1970-1974.

| CAUSES OF DEATH | 1970 | 1971 | 1972 | 1973 | 1974 |
|---|------------|------------|--------------|--------------|--------------|
| Accidental Causes: | | | | | |
| E830-E832 Drowning | 33 | 29 | 20 | 29 | 32 |

| Operations of war | 13 | 17 | 20 | 29 | 20 |
| Injury undetermined whether accidentally or purposely inflicted | 13 | 17 | 20 | 29 | 20 |
| TOTAL DEATHS FROM VIOLENCE | 696 | 739 | 1,033 | 1,228 | 1,128 |

Of the 1,128 deaths 348 were attributed to transport accidents (E800—E845) (excluding drowning from watercraft (E830, E832)). Road vehicle accidents (E810—E827) accounted for 340 deaths as compared with 390 in 1974. Table S1 affords comparison of numbers of deaths from road vehicle accidents in 1974 with those for the three preceding years by sex and certain age-groups whilst Table S2 shows the various categories of persons killed in motor vehicle accidents and details of other transport accidents.

TABLE S1. Northern Ireland: Deaths from road vehicle accidents (E810—827) 1971-1974.

| 1973 | 99 | 12 | 12 | 22 | 15 | 24 | 14 |
| 1974 | 74 | 2 | 3 | 16 | 8 | 26 | 19 |

ie Total accidental cause, (Tables) - Total Transport Accidents (E800-E940) (Tables)

Other accidents accounted for 440 deaths and of these deaths 227 were ascribed to falls, 32 to drowning, 82 to poisons or poisonous gases, 32 to fire and heat, 5 to mechanical suffocation, 2 to machinery and 60 to other accidental causes. A detailed break-down showing non-transport accidents by sex and age-groups is given in Abstract 20.

Deaths from accidents recorded as occurring in the home numbered 239 compared with 218 in both 1973 and 1972. Most accidents in the home are occasioned by falls and it should be noted that in 1974 there were 26 deaths from falls where the place of the accident was unspecified compared with 34 in 1971. Fuller details of these and other accidents (apart from transport accidents) are given in Abstract 20.

During the year there were 62 cases of suicide (39 males and 23 females) compared with 70 (32 males and 38 females) in 1973, 209 deaths from homicide and 47 from war operations. In addition there were 20 deaths in which it was not possible to determine whether the injuries were accidentally or purposely inflicted.

TABLE S2. Deaths from transport accidents, by sex and age 1974

Deaths in which violence was stated to be the sequel to some other cause are correlated in Table S3. Alcoholism was, as usual, the greatest single factor in this group causing the deaths of 4 people. This figure, however, does not include deaths caused by other people who were in a state of intoxication.

TABLE S3. Northern Ireland: Deaths in which violence was a terminal cause, 1974.

CERTIFICATION OF DEATHS

All deaths must be certified by either a medical practitioner or a coroner and Table T shows the type of certification during the year. The circumstances of 2,822 deaths (16.3 per cent. of all deaths) were considered by the coroners and in 981 of these cases inquests were held. In 922 cases the deaths were certified by coroners after post-mortem examinations had proved inquests to be unnecessary.

Of the 14,505 deaths certified by medical practitioners the deceased persons were not seen after death by the practitioners in 2,539 cases

Table T.

computer
tabulation

LIFE TABLE

The expectation of life is the average number of years which would be lived by a group of people of given age who are continuously subject to given mortality rates, usually those of a selected year or years.

The abridged life table shown as Table U is based on the mortality rates for 1972-1974 and shows the expectation of life at various age-points together with the number of persons who would survive to given age x out of 10,000 born, if subjected throughout their lives to this mortality experience.

Thus 95 per cent. of males and 98 per cent. of females would survive the first year of life; 93 per cent. of males and 97 per cent. of females would reach the age of 20; 74 per cent. of males and 86 per cent. of females would reach the age of 60 and the men could then expect an average future lifetime of 15 years compared with 19 years for women.

Based on the mortality experience of 1972-1974 the expectation of life at birth was 65.0 years for males and 73.6 years for females; at age one year the expectations were 67.3 years for males and 74.1 years for females. Table U1 affords comparison of these figures with those for certain preceding years.

Table U

| 75 | 3,607 | 6.86 | 5,773 | 9.61 |
| 80 | 2,095 | 5.00 | 4,681 | 6.27 |
| 85 | 892 | 3.38 | 2,549 | 4.42 |

This abridged life table is constructed from the estimated populations and the total deaths registered during the years 1972-1974.

The column headed l_x shows the numbers who would survive to exact age x out of 10,000 born who were subject throughout their lives to the death probabilities indicated by the mortality records for the years 1972-1974.

Column e_x gives the "expectation of life"—that is the average future lifetime which would be lived by a person aged exactly x if subject to those death probabilities.

TABLE U1. *Northern Ireland: Expectation of life at birth, at one year of age and at 65 years of age for certain periods between 1890 and 1974.*

| Period | Expectation of life | | | | | |

The Life Tables for 1901, 1926, 1951 and 1961 are included in Section I of the Ulster Year Book, 1975, obtainable from Her Majesty's Stationery Office price £2.

CONGENITAL MALFORMATIONS

— All data

This section relates to children born (live or still) with any apparent deformity. The information about these congenital malformations is furnished to the Department of Health and Social Services by the health and social services boards and is classified according to the residence of the parents and not to the place of birth.

from
Dept
H & S.S.

During the year 745 children were born with congenital malformations compared with 725 in 1973 and 911 in 1972. The Northern Ireland rate for 1974 was 26.6 per 1,000 births (live and still) compared with 24.5 for 1973.

* Per 1,000 births (live and still).

Of the 745 children born with malformations 135 (18.1 per cent.) were born with more than one abnormality. In all, 921 separate abnormalities were recorded. Table VI shows the number of children affected by multiple abnormalities in each of the Health and Social Services districts.

Details about the nature of the malformations will be found in Abstracts 26, 27, 29 and 30 and data about the mother's age and the number of other children born to her are in Abstract 28.

MIGRATION

The population figures ascertained at each census enable the net migration during the inter-censal periods to be calculated. Table W shows that during the period of approximately four and a half years between the censuses taken on the 9th October, 1966 and the 25th April, 1971 there was a net outward movement of 24,838 persons to all countries including other parts of the British Isles.

TABLE W. *Northern Ireland: Net migration during inter-censal period 1966-1971*

| | Males | Females | Total |
|---|---------|---------|-----------|
| Population, Census of 1966 | 723,884 | 760,891 | 1,484,775 |
| Births, 1966-1971 | 76,518 | 72,188 | 148,706 |
| Deaths, 1966-1971 | 38,102 | 34,476 | 72,578 |
| Natural increase* | 38,416 | 37,712 | 76,128 |
| Population 1966 plus natural increase | 762,300 | 798,603 | 1,560,903 |
| Population, Census of 1971 | 754,676 | 781,389 | 1,536,065 |
| Net movement outwards | 7,624 | 17,214 | 24,838 |

* The excess of births over deaths.

Table W1 shows the natural increase in the population for each inter-censal period since birth and death registration commenced in 1864, together with the net movement outwards and the percentage of the increase lost by migration.

TABLE W1. *Northern Ireland: Inter-censal variations in population, 1871-1971.*

| Inter-censal period | Population at beginning of period | Natural increase* | Net movement outwards | Percentage of increase lost by migration |
|---------------------|-----------------------------------|-------------------|-----------------------|--|
| 1871-1881 | 1,359,190 | 104,350 | 158,724 | 152 |
| 1881-1891 | 1,304,816 | 71,910 | 140,670 | 196 |
| 1891-1901 | 1,236,056 | 68,634 | 67,738 | 99 |
| 1901-1911 | 1,236,952 | 78,996 | 65,417 | 83 |
| 1911-1926 | 1,250,531 | 113,603 | 107,573† | 95 |
| 1926-1937 | 1,256,561 | 80,835 | 57,651 | 71 |
| 1937-1951 | 1,279,745 | 158,443 | 67,267† | 42 |
| 1951-1961 | 1,370,921 | 146,349 | 92,228 | 63 |
| 1961-1966 | 1,425,042 | 97,434 | 37,701 | 39 |
| 1966-1971 | 1,484,775 | 76,128 | 24,838 | 33 |

* Excess of births over deaths.

† Including deaths in H.M. Forces and Mercantile Marine which occurred outside Northern Ireland.

It is estimated that during the year ended 30 June, 1974 the net outward migration amounted to 11,000 persons.

ADMINISTRATION

GRO
sections **Introductory** The administrative functions of the Registrar General comprise the registration of births (live and still), deaths, marriages and adoptions, and the provision or supervision of machinery for dealing with preliminaries to marriages other than those according to the rites of the Roman Catholic Church.

TR 910 **Buildings licensed or registered for marriages** The number of places of worship (other than those belonging to the Roman Catholic Church) in which marriages could be solemnised, as at 31st December in each of the years 1971, 1972, 1973 and 1974 are as follows:

| <i>Denomination</i> | <i>1971</i> | <i>1972</i> | <i>1973</i> | <i>1974</i> |
|-------------------------|--------------|--------------|--------------|--------------|
| Church of Ireland . . . | 414 | 414 | 415 | 414 |
| Presbyterian . . . | 513 | 516 | 515 | 516 |
| Methodist . . . | 162 | 163 | 161 | 160 |
| Others . . . | 333 | 346 | 353 | 369 |
| TOTAL | 1,422 | 1,439 | 1,444 | 1,459 |

Legitimacy Acts (N.I.), 1928 to 1961 Under these Acts an illegitimate child whose parents have married is, subject to certain conditions, legitimated, and the Registrar General is empowered to authorise the registration or re-registration of the birth. During 1974 the registration or re-registration of the births of 211 children was authorised, the comparative figures for 1973 and 1972 being 130 and 193 respectively.

Adoption Act (N.I.), 1967 and Adoption (Hague Convention) Act (N.I.) 1969 Registers of children adopted under the provisions of the above Acts and of the previous Adoption Acts of 1929 and 1950 are kept in the General Register Office, to which the adoption orders made by the Courts are transmitted. A certified copy of an entry in the Adopted Children Register is evidence of adoption, and is also evidence of the date of birth of the adopted child. The children whose adoptions were recorded in the Adopted Children Registers during 1974 numbered 332 whilst the figures for 1973 and 1972 were 407 and 426 respectively.

Searches and certificates The original records of live births, deaths, and marriages registered in Northern Ireland were in the custody of local registration officers until 1 October 1973*, since which date the original records of births and deaths have been centralised in the General Register Office at Oxford House 49/55 Chichester Street Belfast; marriage original records are held by the local Registrars. The following statement shows the activity during 1974 by way of searches and issue of certificates from the General Register Office:—

* The date of introduction of a new system of registration in Northern Ireland: See The Births, Deaths and Marriages Registration (N.I.) Order 1973.

| | | | | | | 12,175.22 | | |

* Fees for certificates and searches were increased with effect from the 21st April, 1956 and the 1st April 1966.

Verifications Requests for the verification of particulars of events registered are received from Government Departments in connection with claims for pensions, etc. During the year the number of cases dealt with was 13,487.

METEOROLOGY

The following synopsis of the weather experienced in Northern Ireland during 1974 is furnished by the Director-General, Meteorological Office, through the Climatological and Public Records Office, Tyrone House, Ormeau Avenue, Belfast. The term average equals 100 per cent and where used it refers to the 35 year period 1916 to 1950 with respect to rainfall and to the World Meteorological Organisations standard 30 year period 1941 to 1970 for temperature and sunshine.

Tables compiled and attached give data in respect of certain stations; columns 2 and 3 give the highest and lowest air temperatures recorded on any date during the month indicated; in columns 4 and 5 the mean daily maximum and minimum air temperatures are given. There is also a table giving similar data related to Northern Ireland as a whole based on a selection of stations appropriate to the meteorological element and not necessarily those whose data are published in the preceding pages. This information smoothes out the variations experienced in different parts of the Province and therefore gives a general picture. The "Highest" and "Lowest" however refer to values from around 60 stations recording temperatures in Northern Ireland and are not restricted to the 7 stations data given in the preceding pages.

Met
Office

Temperature is given in degrees centigrade: to convert actual values to fahrenheit multiply by 9, divide by 5 and add 32 degrees. To convert "difference from average" temperatures in the Centigrade Scale to Fahrenheit $1.0 \text{ degrees centigrade} = 1.8 \text{ degrees fahrenheit}$.

January had above average rainfall (general value 145 per cent.), above average temperatures and below average sunshine (77 per cent.). It was the wettest, mildest and stormiest January month in some areas this century. In parts of Co. Down notably Castlewellan Forest and Tullymore Park monthly rainfall totals exceeded 300 millimetres. Deer's Meadow in the Mourne Mountains had a monthly total of 430 millimetres.

Temperatures were well above average. It was the mildest January for at least 20 years. At Hillsboro in Co. Down it was the mildest since 1932. The unusually low frequency of frost was a very noteworthy feature. It was the stormiest January on record. Mean hourly wind speeds of 54 knots with a gust speed of 108 knots were recorded at Kilkeel, Co. Down on 12th and this gust speed was the highest recorded in Northern Ireland since records began. The severe gales of 12th caused widespread damage and serious disruption to traffic.

February was mild and wet and sunshine was below normal. Rainfall was 128 per cent., sunshine 85 per cent. and temperatures 1.2 degrees centigrade above average. There were 2 occurrences of gales in Eastern areas, 1 of fog, 1 of hail and 3 of snow or sleet. There were 5 occurrences of air frost and 12 of ground frost inland and below average frequency.

March rainfall was above average in the West but below normal elsewhere (a general value of 78 per cent.). Temperatures were below average by 0.5 degrees centigrade. Sunshine was 97 per cent. of normal. There were 3 occurrences of snow/sleet, 2 of hail, 2 of fog and 1 of gale. There were 8 occurrences of air frost and 18 of ground frost away from coasts.

April was very dry, the driest in many places since 1938. There were partial droughts and droughts in some areas between 1st and 10th and between 12th and 29th. The general value for rainfall was 41 per cent. Temperatures were about average whilst sunshine was 138 per cent and some areas had their sunniest April since 1938. Aldergrove in Co. Antrim had its sunniest April since records began in 1927. There were 2 occurrences of snow/sleet, 6 of air frost and 13 of ground frost.

May was cool, dull and wet. Rainfall was 109 per cent., sunshine 74 per cent. and temperatures were 0.5 to 1.0 degrees centigrade below normal. There were no gales, 2 occurrences of air frost and 8 of ground frost, 1 of hail and 1 of thunder.

June was cool and dry with normal amounts of sunshine. Dry spells occurred between 11th and 15th and between 20th and 28th. Rainfall was 66 per cent., sunshine 103 per cent and temperatures 1.0 degrees centigrade below average. There was 1 occurrence of air frost and 7 of groundfrost away from coasts. There were 2 occurrences of hail, 2 of thunder and 2 of fog.

July was cool and dull with just below normal rainfall. Rainfall was 97 percent., sunshine 92 per cent. and temperatures 0.7 degrees centigrade below average. It was the coolest July in a few places since 1965. There were no occurrences of air frost but 1 or 2 of ground frost in hilly areas. There was 1 occurrence of thunder, 2 of fog and no gales.

August had below average temperatures and below average rainfall though sunshine was well above normal. Rainfall was 77 per cent., sunshine 112 per cent. and temperatures were 0.2 degrees centigrade below average. There was 1 occurrence of fog, no frost, 1 of hail.

September was cold and wet though sunshine was a little above average. It was the coolest September in most places since 1952 and the wettest since 1946. In the Mourne Mountains it was the wettest 1st to 24th September period on record. The period 16th to 30th September was the coldest such period this century.

Temperatures were 2.1 degrees centigrade below normal but during period 16th to 30th September they were 3.5 degrees centigrade below average. There were 2 occurrences of air frost and 6 of ground frost. There were 3 occurrences of hail, 1 of fog, 2 of gale and 3 of thunder.

October was comparatively dry though very cold. It was the coldest October generally this century. Rainfall was 60 per cent., sunshine 111 per cent. and temperatures 2.5 degrees centigrade below average. There were no occurrences of air frost but 10 of ground frost. There were 3 occurrences of hail and 1 of fog with no gales.

November was cool with above average rainfall and sunshine. Temperatures were 1.0 degrees centigrade below average. Rainfall was 105 per cent. whilst sunshine was 129 per cent. It was the sunniest November in some places this century. There were 6 occurrences of air frost and 18 of ground frost, an above average frequency. There were 3 occurrences of hail, 1 of snow/sleet, 1 of thunder and 1 of fog. Gales occurred on 23rd and 24th when some structural damage was caused and gust speeds over the 2 day period reached 60 knots and over in exposed places.

December rainfall was a little above average with a general value of 102 per cent. Sunshine was 80 per cent. and temperatures were 2.4 degrees centigrade above normal. It was the mildest December month in most places since 1934. The Christmas period 22nd to 28th December was the mildest such period this century. There were few if any occurrences of air frost and only 3 of ground frost (well below average). There were an unusually high number of days of strong to gale force winds. There were 2 or 3 occurrences of snow or sleet and it lay to depths of between 1 and 3 centimetres over higher ground. There were 3 occurrences of hail.

The year 1974 had about average rainfall with temperatures 0.2 degrees centigrade below average. Sunshine was a little above normal with a value of 102 per cent.

Features of 1974 were the wetness and storminess of January, February and the unusual mildness of the same 2 months; the very severe gales of 11th and 12th January with gusts to over 100 knots at Kilkeel, Co. Down; the very sunny April and November months; the coolness of the May to November period and in contrast the mildness of December. The wetness of September was also noteworthy. The pattern of the last 6 months of the year was not reflected in the amount of rain that fell but in the fact that during the period there were few if any sustained dry spells. Measurable rain fell on practically every day throughout the entire period August to December.

Met. Office

ABSTRACT 12 (continued). Northern Ireland: Cause

| Detailed List | CAUSES OF DEATH | AGES A | | | | | | | | | |
|---------------|--|----------|---------------|----------------------|----|----|----|----|----|-----|--------|
| | | ALL AGES | Under 4 weeks | Total under one year | 1- | 2- | 3- | 4- | 5- | 10- | 15- |
| E840- E845 | Air and space transport accidents {M {F | 2 | . | . | . | . | . | . | . | . | 1 |
| E840 | Accident to powered aircraft at take-off or landing {M {F | . | . | . | . | . | . | . | . | . | . |
| E841 | Accident to powered aircraft, other and unspecified {M {F | . | . | . | . | . | . | . | . | . | . |
| E842 | Accident to unpowered aircraft {M {F | . | . | . | . | . | . | . | . | . | . |
| E843 | Fall in, on, or from aircraft {M {F | . | . | . | . | . | . | . | . | . | . |
| E844 | Other specified air transport accidents {M {F | 2 | . | . | . | . | . | . | . | . | 1 |
| E845 | Accident involving spacecraft {M {F | . | . | . | . | . | . | . | . | . | . |
| E850- E859 | Accidental poisoning by drugs and medicaments {M {F | 15 23 | . | . | . | 1 | . | . | . | . | 1 1 |
| E850 | Accidental poisoning by antibiotics and other anti-infectives {M {F | . | . | . | . | . | . | . | . | . | . |
| E851 | Accidental poisoning by hormones and synthetic substitutes {M {F | . | . | . | . | . | . | . | . | . | . |
| E852 | Accidental poisoning by primarily systemic and haematologic agents {M {F | . | . | . | . | . | . | . | . | . | . |
| E853 | Accidental poisoning by analgesics and antipyretics {M {F | 1 1 | . | . | . | . | . | . | . | . | 1 |
| E854 | Accidental poisoning by other sedatives and hypnotics {M {F | 9 19 | . | . | . | . | . | . | . | . | 1 |
| E855 | Accidental poisoning by autonomic nervous system and psychotherapeutic drugs {M {F | 5 2 | . | . | . | . | . | . | . | . | . |
| E856 | Accidental poisoning by other central nervous system depressants and stimulants {M {F | . | . | . | . | . | . | . | . | . | . |
| E857 | Accidental poisoning by cardiovascular drugs {M {F | . | . | . | . | . | . | . | . | . | . |
| E858 | Accidental poisoning by gastrointestinal drugs {M {F | 1 | . | . | . | 1 | . | . | . | . | . |
| E859 | Accidental poisoning by other and unspecified drugs and medicaments {M {F | . | . | . | . | . | . | . | . | . | . |
| E860- E869 | Accidental poisoning by other solid and liquid substances {M {F | 8 4 | . | . | . | . | . | . | . | 1 | 1 |
| E860 | Accidental poisoning by alcohol {M {F | 6 2 | . | . | . | . | . | . | . | . | . |
| E861 | Accidental poisoning by cleaning and polishing agents {M {F | . | . | . | . | . | . | . | . | . | . |
| E862 | Accidental poisoning by disinfectants {M {F | . | . | . | . | . | . | . | . | . | . |
| E863 | Accidental poisoning by paints and varnishes {M {F | . | . | . | . | . | . | . | . | . | . |
| E864 | Accidental poisoning by petroleum products and other solvents {M {F | . | . | . | . | . | . | . | . | . | . |

of death at different age-periods, 1974.

ABSTRACT 12 (continued). Northern Ireland: Causes

| Detailed List | CAUSES OF DEATH | AGES AT | | | | | | | | | |
|---------------|---|-------------|---------------|----------------------|-----|-----|-----|-----|-----|-----|-----|
| | | ALL AGES | Under 4 weeks | Total under one year | 1- | 2- | 3- | 4- | 5- | 10- | 15- |
| E912 | Inhalation and ingestion of other object causing obstruction or suffocation | M 1 F 2 | . . | . 1 | . . | . . | . . | . . | . . | . . | . . |
| E913 | Accidental mechanical suffocation | M 2 F 3 | . . | 1 2 | . . | . . | . . | . . | . . | . . | . . |
| E914 | Foreign body entering accidentally eye and adnexa | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E915 | Foreign body entering accidentally other orifice | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E916 | Struck accidentally by falling object | M 2 F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E917 | Striking against or struck accidentally by objects | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E918 | Caught accidentally in or between objects | M 8 F 1 | . . | . . | 1 . | . . | . . | . . | . . | . . | 1 . |
| E919 | Over-exertion and strenuous movements | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E920 | Accident caused by cutting or piercing instruments | M 3 F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E921 | Accident caused by explosion of pressure vessel | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E922 | Accident caused by firearm missiles | M 11 F 1 | . . | . . | . . | . . | 1 . | . . | 1 . | 1 . | 2 . |
| E923 | Accident caused by explosive material | M 6 F 2 | . . | . . | . . | . . | . . | . . | . . | . . | 2 1 |
| E924 | Accident caused by hot substance, corrosive liquid and steam | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E925 | Accident caused by electric current | M 3 F 1 | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E926 | Accident caused by radiation | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E927 | Vehicle accidents not elsewhere classifiable | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E928 | Machinery accidents not elsewhere classifiable | M 2 F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E929 | Other and unspecified accidents | M 2 F . | . . | 1 . | . . | . . | . . | . . | . . | 1 . | . . |
| E930-E936 | Surgical and medical complications and misadventures | M . F 1 | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E930 | Complications and misadventures in operative therapeutic procedures | M . F 1 | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E931 | Complications and misadventures in other and unspecified therapeutic procedures | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E932 | Complications and misadventures in diagnostic procedures | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E933 | Complications and misadventures in prophylaxis with bacterial vaccines | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |
| E934 | Complications and misadventures in prophylaxis with other vaccines | M . F . | . . | . . | . . | . . | . . | . . | . . | . . | . . |

of death at different age-periods, 1974.

ABSTRACT 17. Abbreviated list numbers and equivalent detailed list numbers and causes of death (8th Revision I.C.D.).

| Detailed List | Abbreviated List 'B' | CAUSE OF DEATH |
|------------------------------------|----------------------|--|
| 000 | 1 | Cholera |
| 001 | 2 | Typhoid fever |
| 004, 006 | 3 | Bacillary dysentery and amoebiasis |
| 008, 009 | 4 | Enteritis and other diarrhoeal diseases |
| 010-102 | 5 | Tuberculosis of respiratory system |
| 013-019 | 6 | Other tuberculosis, including late effects |
| 020 | 7 | Plague |
| 032 | 8 | Diphtheria |
| 033 | 9 | Whooping cough |
| 034 | 10 | Streptococcal sore throat and scarlet fever |
| 036 | 11 | Meningococcal infection |
| 040-043 | 12 | Acute poliomyelitis |
| 050 | 13 | Smallpox |
| 055 | 14 | Measles |
| 080-083 | 15 | Typhus and other rickettsioses |
| 084 | 16 | Malaria |
| 090-097 | 17 | Syphilis and its sequelae |
| Rem. 000-136 | 18 | All other infective and parasitic diseases |
| | | Cancer of:— |
| 151 | 19A | stomach |
| 152-154 | 19B | intestines and rectum |
| 162 | 19C | trachea, bronchus and lung |
| 174 | 19D | breast |
| 180-189 | 19E | genito-urinary organs |
| Rem. 140-200, 202, 203, 208, 209 | 19F | other sites |
| 201, 204-207 | 19G | Hodgkin's disease and leukaemia |
| 210-239 | 20 | Benign neoplasms and neoplasms of unspecified nature |
| 250 | 21 | Diabetes mellitus |
| 260-269 | 22 | Avitaminoses and other nutritional deficiency |
| 280-285 | 23 | Anaemias |
| 320 | 24 | Meningitis |
| 390-392 | 25 | Active rheumatic fever |
| 393-398 | 26 | Chronic rheumatic heart disease |
| 402, 404 | 27A | Hypertensive heart disease |
| 400, 401, 403 | 27B | Other hypertensive disease |
| Pt. of 410-414 | 28A | Ischaemic heart disease with hypertension |
| Rem. of 410-414 | 28B | Ischaemic heart disease without hypertension |
| 420-429 | 29 | Other forms of heart disease |
| Pt. of 430-438 | 30A | Cerebrovascular disease with hypertension (benign) |
| Rem. of 430-438 | 30B | Cerebrovascular disease without hypertension |
| 440-458 | 46A | Other diseases of circulatory system |
| 470-474 | 31 | Influenza |
| 480-486 | 32 | Pneumonia |
| 490-493 | 33 | Bronchitis, emphysema and asthma |
| Rem. 460-519 | 46B | Other diseases of respiratory system |
| 531-533 | 34 | Peptic ulcer |
| 540-543 | 35 | Appendicitis |
| 550-553, 560 | 36 | Intestinal obstruction and hernia |
| 571 | 37 | Cirrhosis of liver |
| Rem. 520-577 | 46C | Other diseases of digestive system |
| 580-584 | 38 | Nephritis and nephrosis |
| 600 | 39 | Hyperplasia of prostate |
| 640-645 | 40 | Abortion |
| 630-639, 650-678 | 41 | Other complications of pregnancy, childbirth and puerperium |
| 740-759 | 42 | Congenital anomalies |
| 764-768, 772, 776 | 43 | Birth injury, difficult labour and other anoxic and hypoxic conditions |
| 760-763, 769-771, 773-775, 777-779 | 44 | Other causes of perinatal mortality |
| 780-796 | 45 | Symptoms and ill-defined conditions |
| Rem. 240-738 | 46D | All other diseases |
| E810-E823 | 47 | Motor vehicle accidents |
| E800-E807, E825-E949 | 48 | All other accidents |
| E950-E959 | 49 | Suicide and self-inflicted injuries |
| E960-E999 | 50 | All other external causes |

ABSTRACT 17. Northern Ireland: Causes of death at different age-periods.
