1 The Belfast Urban Area Report - Synopsis of Key Results

1.1 The subjects covered in this Report include area, population, households, age, sex, marital status, birthplace, religion, dwelling type, tenure, household size, occupational density, amenities, cars, economically active persons, long-term illness, term-time address of students and schoolchildren, academic qualifications, and Irish language.

Population Present on Census Night

1.2 As enumerated at midnight on 21 April 1991 the population of Belfast Urban Area was 480,109.

Usually Resident Population (Present/Absent Base)

1.3 The number of people usually resident in Belfast Urban Area (i.e. excluding visitors but including those who were stated as being usually resident in Belfast Urban Area, whether or not they were at their usual address on Census night) was enumerated at 475,967.

Young and Old

1.4 The figures reveal the proportion of elderly persons in the population was 17.4% of persons of pensionable age (men aged 65 or over and women aged 60 or over), and 6.1% aged 75 or over. 23.6% of the population were aged under 16 years.

Religion

1.5 The figures show that 8.3% of the population did not answer the voluntary question on religion. 5.6% of the population stated they had no religion.

Employment

1.6 In the week preceding Census day (14-20 April 1991) of the total population aged 16 and over, 71.5% of males and 46.1% of females were economically active. Of these 79.8% of males and 88.3% of females were in employment while 20.2% of males and 11.7% of females were out of employment.

Households

1.7 There were 177,943 enumerated private households, which on the basis of usually resident population contained an average of 2.6 persons per household.

Living Alone

1.8 The number of households in which one person usually lives alone was 48,189 or 27.1% of private households with a usual address in Belfast Urban Area.

Overcrowding

1.9 In 3.2% of households there was more than one person per room.

Owner Occupiers and Tenants

1.10 57.0% of households were in owner occupied accommodation and 33.0% in accommodation rented from a local or public authority.

Household Amenities

1.11 1.6% of households lacked or had to share with another household the use of a fixed bath or shower. 1.3% of households lacked or had to share an inside WC.

Availability of Cars

1.12 53.9% of households had one or more cars available for use by members of the household.

Long-term Illness

1.13 The figures reveal that 13.2% of the population recorded themselves as having a long-term illness, health problem or handicap which limited their daily activities or the work they could do.

Highest Level of Academic Qualification

1.14 64.0% of all persons aged 16 and over had no formal academic qualifications. 36.0% had some form of academic qualification and 8.2% had a qualification at degree level or higher.

Irish Language

1.15 The question on Irish was included for the first time in the Northern Ireland Census of Population. Its wording was identical to the wording of the Gaelic question in the 1991 Census for Scotland. In response to the question 3.2% of the population aged 3 years and over claimed that they could either speak, read or write Irish and 4.4% claimed ability to do all three.

2 1991 CENSUS - Programme of Census Reports

Preliminary

2.1 This report was published in July 1991 and contained provisional figures of the population and private households for each of the 26 local government districts with a brief statistical commentary.

Summary

2.2 The Summary Report was published in October 1992 and contained information for Northern Ireland and for each of the 26 local government districts. The subjects covered include age distribution, sex, marital status, birthplace, religion, households, tenure, amenities, occupation density, availability of cars, communal establishments, economically active population, employment status, long-term illness, term-time address of students and schoolchildren, and Irish language.

Belfast Urban Area

2.3 The tables in this report contain detailed information to ward level for the Belfast Urban Area as defined by the Department of the Environment for Northern Ireland Town and Country Planning Service (see para 3.1 of Explanatory Notes and Definitions on page ix). The subjects covered include age distribution, sex, marital status, birthplace, religion, households, tenure, amenities, occupation density, availability of cars, communal establishments, economically active population, employment status, long-term illness, term-time address of students and schoolchildren, and Irish language.

Religion

2.4 All tables in this report will contain information at Northern Ireland level and some will give details to local government districts on the main religious denominations. The subjects covered will include population by age, sex, marital status, occupation, industry, and other characteristics.

Economic Activity

2.5 This report will contain tables giving the figures for both the economically active and economically inactive population. The employed population will be analysed by industry and occupation classifications and related to age, marital status, employment status, socio-economic groupings, area of workplace, etc. All tables will contain information at Northern Ireland level but some will give details for local government districts.

Workplace and Transport to Work

2.6 Employed population details in relation to area of workplace/residence will be contained in this report. Workplace movement by socio-economic group, occupation, industry, and means of transport to work will also be detailed to local government district level.

Housing and Household Composition

2.7 All tables in this report will contain information at Northern Ireland level but some will give details for local government districts. Tables will include information on households, tenure, occupation density, car availability, age, sex, marital status and will relate household composition to social and other economic characteristics.

Migration

2.8 Numbers and characteristics of the population who changed their usual address in the year before Census day will be contained in this report. Migrant households will be detailed by age, sex, marital status, etc. Some tables will refer to Northern Ireland and others will be detailed to local government districts.

Education

2.9 This report will contain information at Northern Ireland level of age, sex, occupation, and industry by highest level of academic qualification. Also included will be socio-economic group by religion and economic activity by marital status related to highest level of academic qualification.

Irish Language

2.10 This report will contain information on the population aged 3 years and over, recorded as having knowledge of Irish language. The tables covered will include knowledge by age, sex, religion, economic position, and highest level of academic qualification to Northern Ireland level.

3 Explanatory Notes and Definitions of terms used in the report

Area and Administrative Divisions

3.1 The figures on areas have been supplied by the Ordnance Survey for Northern Ireland and rounded to the nearest hectare. A hectare is equivalent to 2.471 acres. The local government districts and wards for which statistics are presented in this report are those in existence at the date of the Census and which are contained in the Belfast Urban Area as defined by the Department of the Environment for Northern Ireland Town and Country Planning Service.

These are:-

Belfast District Council (all wards) Castlereagh District Council with the exception of Carryduff and Moneyreagh wards, Lisburn District Council with the exception of Ballymacbrennan, Dromara, Drumbo, Glenavy, Hillsborough, Magheragall, Maze and Moira wards, Newtownabbey District Council with the exception of Ballyclare North, Ballyclare South, Ballynure, Doagh and Mallusk wards.

In Carrickfergus District Council the wards of Greenisland, Gortalee and Knockagh. In North Down District Council the wards Cultra, Holywood Demesne and Holywood Priory.

Population

3.2 Census results are presented as cross tabulations, each counting a particular population, for example, people, households, families, or people in communal establishments. It is important to know exactly what is being counted, i.e. the population base. Information on whereabouts and usual address given for each person listed on the Census form can be used to derive the population base.

3.3 The **population present on Census night (present population)** in an area is the count of all people recorded as spending Census night in the area regardless of whether or not this was where they usually lived; that is, all persons recorded on the Census H Forms for whom the whereabouts on Census night was given as the relevant household, plus all persons recorded as being in communal establishments.

3.4 The **usually resident population** in an area is the count of those people recorded on the forms for the area as usually living 'at this address' whether or not they are present on Census night.

3.5 **Shipping:** Apart from houseboats (enumerated as private households), vessels were treated in a similar way to communal establishments with a listing form and individual return form for each person on the ship. Persons on naval vessels in Northern Ireland waters or ports on Census night were included as present in the home base port of the ship. Generally persons on other vessels were counted as present in the area in which the form was collected.

3.6 For the 1991 Census there were some minor changes made to the enumeration of shipping. Vessels on coastal trips, fishing voyages and voyages between Great Britain and Northern Ireland were not enumerated. However, foreign registered ships in Northern Ireland ports, excluded in 1981, were enumerated.

Campers, persons sleeping rough, etc.

3.7 The present population also includes persons not enumerated in private households or communal establishments, for example, persons sleeping rough and persons enumerated in caravans or other non-permanent structures which were not the usual residence.

Population covered in this Report

3.8 Figures contained in this report refer to the usually resident population with the exception of Tables 1 and 15. Table 1 gives details of the population present in Belfast Local Government district, as recorded in the censuses of 1981 and 1991.

3.9 In Table 15 (Communal Establishments) the figures relate to the persons present in these establishments on Census night.

Households

3.10 A household is either one person living alone or a group of people (who may or may not be related) living at the same address with common housekeeping. Persons staying temporarily with the household are included. A group of people is treated

as a household if there is any regular arrangement to share at least one meal a day. Two people who share one room, although each may have separate catering arrangements, are treated as one household. A household must have exclusive use of at least one room.

3.11 **Absent households** are those households where all residents of the household were recorded as absent from their usual address on Census night and at which no other person was present.

Dwellings

3.12 Dwellings are defined as 'structurally separate accommodation' and are classified into permanent and non-permanent accommodation.

3.13 Permanent accommodation includes:

- a whole house or bungalow, whether detached, semi-detached or terraced;

- the whole of a purpose built flat or maisonette including any situated in a commercial building (for example in an office building or hotel or over a shop) or in a block of flats;

- part of a converted or shared house, bungalow or flat with a separate or shared entrance into the building. This includes a one roomed flatlet, one room or a bedsit not self-contained, a self-contained flat or accommodation with two or more rooms, or two or more rooms not self-contained.

3.14 Non-permanent accommodation includes:

- caravans or mobile structures and such non-permanent structures as huts, shacks, tents, etc., are treated as dwellings only if they were some person's usual residence on Census night. If such structures were vacant on Census night they were excluded.

3.15 **A vacant dwelling** is one which was fit or ready for habitation but was awaiting occupancy - this type of dwelling would invariably be unfurnished. Derelict or uninhabitable dwellings are excluded.

Shared dwellings

3.16 A shared dwelling is a dwelling sharing an entrance into the building and comprising two or more household spaces that are not self-contained.

3.17 **Other dwellings** include student or holiday accommodation or second residences in which all the persons present on Census night have a more permanent address elsewhere.

Communal Establishments

3.18 People were enumerated in a variety of communal establishments (non-private establishments) such as hotels, boarding schools, hospitals, prisons, religious communities, etc. The population enumerated in communal establishments plus persons sleeping rough and campers is referred to as the population in non-private households. It includes all those present in the establishment on Census night and all who arrived on Monday 22 April 1991 and who had not been included on a Census form as present elsewhere. Non-resident staff/personnel on duty in the premises on Census night are not included.

3.19 Separate buildings in the grounds of an establishment for the accommodation of private households, such as a doctor's house or caretaker's cottage in the grounds of a hospital, are classed as private residences and not as part of the communal establishment. People occupying flats or suites of rooms within the main building of an establishment are treated as part of the main establishment and included on the L form. Service families or civilians living in married quarters of the Armed Services are treated as private households whether the quarters were located within or outside the boundaries of the service establishment.

3.20 Annexes to communal establishments are treated as part of the main establishment if located in the same enumeration district or if meals were taken at the main establishment even though the annexe was in a different enumeration district.

Establishment classification

3.21 The categories are as follows:

1. Hotels, etc.
2. NHS hospitals and statutory homes (psychiatric).
3. NHS hospitals and statutory homes (others).
4. Non-NHS hospitals and statutory homes (psychiatric).
5. Non-NHS hospitals and statutory homes (others).
6. Homes for the old and disabled.
7. Children's homes.
8. Educational establishments.
9. Places of detention.
10. Defence establishments including naval vessels and service hospitals.
11. Civilian ships, boats and barges.
12. Hostels and lodging houses.
13. Other miscellaneous establishments.
14. Campers and persons sleeping rough.

Residence classification

3.22 Persons enumerated in groups 1 to 9 and 12 to 14 above are given one of the 3 following residence classification codes:

(i) Managers and staff.
(ii) Boarders, patients and inmates.
(iii) Others.

3.23 All persons present in groups 10 and 11 are classed under category (ii). Boarders include hotel guests, persons in lodgings and military personnel in communal establishments including naval vessels.

Age

3.24 Age is the completed years of age at Census date, as derived from the date of birth question.

Pensionable age

3.25 Pensionable age is the minimum age at which a person may receive a National Insurance Retirement Pension - 60 for women and 65 for men.

Usual Address

3.26 In most cases the answer to the usual address question is straightforward. However, students and schoolchildren away from home during term-time were to regard their home address as their usual address. Boarders were to decide whether they considered as their usual address, the address of the relevant household. Household heads, living away from home for part of the week, were to regard their home address as their usual address.

3.27 Persons who failed to answer the relevant questions appear as part of the usually resident population in the area in which they were enumerated and are included as part of a usually resident private household.

Term-Time Address of Students and Schoolchildren

3.28 Term-time address is the address at which a student or schoolchild is resident during term-time. It permits the compilation of the term-time population for an area by omitting resident students or schoolchildren with a term-time address outside the area and including any students or schoolchildren resident outside the area but living in the area in term-time.

Visitors to Northern Ireland

3.29 Visitors to Northern Ireland are those present at the relevant household address on Census night whose usual address is outside Northern Ireland.

Country of Birth

3.30 Persons born in Northern Ireland, England, Scotland, Wales or the Republic of Ireland were asked to tick the appropriate box. Persons born in another country were asked to tick the 'Elsewhere' box and write the present name of the country.

Religion

3.31 It was not obligatory to answer the question on religion. The question was worded as follows:

> Please state the Religion, Religious Denomination or Body to which the person belongs. The term 'Protestant' should not be used alone and the denomination should be given as precisely as possible.
> If none write NONE.

3.32 The classification of religions includes a separate heading for each religion. Religions which differ only or mainly in denominational terminology are generally grouped together and the figures for the group as a whole are shown under the name by which the group is officially or commonly known. Thus the heading Presbyterian includes United Presbyterian, Trinitarian and Church of Scotland. Church of Ireland is regarded as embracing both Anglican and Episcopalian except for persons so described whose usual address was in England: in such cases the Church of England classification was applied.

3.33 Also included was a heading for persons who stated they had no religion.

Long-Term Illness

3.34 Long-term illness covers any long-term illness, health problem or handicap which limits a person's daily activities or the work he/she can do.

Irish Language

3.35 The question on Irish language asked whether persons aged 3 years or over could either speak, read or write Irish. It also contained a category for those with no knowledge of Irish.

Economic Activity

3.36 The economic activity tables describe some of the economic characteristics of the population. The characteristics include both those obtained directly from census questions, for example, economic position, and occupation, and others derived from combining answers to census questions on occupation and industry, for example, employment status. Persons on a Government employment or training scheme are regarded as economically active in employment. However, while information about the particular scheme was not collected in the Census, persons on these schemes are included as a separate group in tables which give details on economic position and occupation.

3.37 Only specified groups were required to answer some of the economic activity questions and this is reflected in the population to which tables refer. Thus:

(a) Tables relating to economic position include only persons aged 16 years and over.

(b) Tables relating to occupation cover the economically active.

(c) Tables relating to employment status cover persons in employment.

Economic position

3.38 The classification by economic position is as follows:

Economically active

In employment means having a job during the week ended 20 April 1991. Temporary, part-time or casual employment is included. Persons absent from their employment due to holiday, strikes, lock-outs, short-time working or temporary stoppages are regarded as in employment. Persons off work sick are regarded as in employment if their jobs are waiting for them on return.

Out of employment means seeking work or prevented by temporary sickness from seeking work or waiting to take up a job already accepted.

Economically inactive

Looking after the home means having full-time responsibility for looking after the home.

Long-term sick/disabled means being unable to work because of long-term sickness or disability.

Retired means wholly retired from employment and no longer seeking paid work.

Students are persons in full-time attendance at an educational establishment irrespective of whether or not they may have part-time or seasonal employment.

Others are persons economically inactive and include persons in unpaid work in a family business including a shop or farm, or looking after the house or family, or in voluntary work, or never in employment and not seeking work, and those of independent means.

Employment status

3.39 The classification of employment status is as follows:

Self-employed

1. With employees.
2. Without employees.

Employees

1. Managers.
   (a) extra large establishments.
   (b) large establishments.
   (c) small establishments.

2. Foremen and supervisors.
   (a) manual.
   (b) non-manual.

3. Professional employees.

4. Other employees.

3.40 Information on occupation is used to distinguish the various types of employees and information on name and business of employer to distinguish the size of the establishment. **Extra large establishments** are those classified as having 500 or more employees. **Large establishments** are those having between 25 and 499 employees. **Small establishments** are those with fewer than 25 employees.

Academic Qualifications

3.41 Academic qualifications have been classified into 7 levels as follows:

1. Degree level or higher.
2. BTEC (Higher), BEC (Higher), TEC (Higher), HNC, HND.
3. GCE 'A' Level, Advanced Senior Certificate.
4. BTEC (National), TEC (National), BEC (National), ONC, OND.
5. GCSE, GCE 'O' Level (including CSE grade 1), Senior Certificate, BTEC (General), BEC (General).
6. CSE (other than grade 1).
7. No formal qualifications as above.

Rooms

3.42 Private households were asked to count the number of rooms in their accommodation, but not to count the following:

Kitchens less than 2 metres (6 feet 6 inches) wide, bathrooms or toilets.

3.43 In unshared dwellings the head of the household provided information. In shared dwellings the enumerator was instructed to enquire of each household in the dwelling if any room was shared by another household. If any room was shared by 2 or more households the enumerator was further instructed to identify separate households where appropriate.

3.44 In the tables classifying households by rooms occupied, any room shared by 2 or more households is allocated to one household to avoid the use of fractions and to ensure that the total number of rooms in the dwelling is not altered.

Tenure

3.45 Heads of households were required to indicate under the following headings how they occupied their accommodation.

As an owner occupier:

1. Through mortgage or loan.
2. Owning the property outright.

By renting, rent free or by lease:

3. From a public authority (e.g. NI Housing Executive).
4. From a housing association or charitable trust.
5. Unfurnished from a private landlord, company or other organisation.
6. Furnished from a private landlord, company or other organisation.

In some other way

If the Census form indicated more than one form of tenure but gave no further information the tenure was assigned to this category where no tenure was stated on the Census form, the accommodation was similarly assigned.

3.46 A shared dwelling was classified according to the tenure stated by the main household.

Density of Occupation

3.47 The density of occupation of a private household is the ratio of the number of persons in a private household with usual residents to the number of rooms occupied by the private household. The following ratios of density are used:

Over 1.5 persons per room.
Over one and up to 1.5 persons per room.
Over 0.75 and up to one person per room.
0.5 and over and up to 0.75 persons per room.
Less than 0.5 persons per room.

Household Amenities

3.48 The amenities on which information was collected in respect of each private household are listed below. In the case of fixed bath or shower and flush toilets the householder was required to indicate whether individual amenities were used only by the household, shared with another household or were not available.

(a) A fixed bath or shower permanently connected to a water supply and waste pipe.
(b) A flush toilet (WC) with entrance **inside** the building.

3.49 Additional information on amenities was collected in respect of each private household. Householders were required to indicate whether the household had use of the following amenities:

Central heating

Central heating includes night storage heaters, warm air or under-floor heating, whether actually used or not. It is categorised as follows:

1. All living rooms and bedrooms centrally heated.
2. Some (not all) living rooms and bedrooms centrally heated.
3. No living rooms or bedrooms centrally heated.

Water supply

1. Public supply piped into house.
2. Public supply at a standpipe.
3. Other.

Domestic sewage disposal

1. Public sewer.
2. Septic tank/cesspit for use only by the household.
3. Septic tank/cesspit for use also by another household.
4. Dry closet/chemical toilet.

Cars and Vans

3.50 The number of cars and vans normally available for use by the household include any car or van provided by employers but exclude vans used solely for the carriage of goods.

Presentation Conventions

3.51 A dash (-) indicates that the entry is zero. A blank indicates that a particular combination of line and column is impossible. In the presentation of rates, a rate shown as 0 indicates that the actual rate is less than one half of a unit but is not zero.

Confidentiality Measures

3.52 To preserve the confidentiality of individuals at all times, tables produced at ward level and below (except those showing basic counts of persons and households) have been modified. This involves the addition of a matrix containing +1's, 0's and -1's to the relevant counts. As the matrix is, for the most part, constructed of 0's only a few cells in the table are actually changed.

3.53 Row and column totals in affected tables are the sums of the individually modified cells and do not necessarily match similar totals published in the Summary Report. This will not however impair the usefulness of the tables.

H Form

3.54 For reference purposes the H form used for private households in the 1991 Census is produced at the end of this report.

Table 1 Population 1981 and 1991

Belfast Local Government District

Date of Census	Population			Intercensal variation				Females per 1,000 males
	Persons	Males	Females	Persons	Males	Females	Per cent (persons)
