

count me in
Census2001

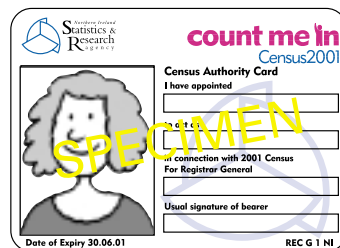

The Census is coming - 29 April 2001.

Every 10 years a Census is held in Northern Ireland. The Census is a count of the whole population and the information it provides is used to help plan all our futures. To get the services we need, we all need to be counted in.

- ***We all need the Census – the information it provides will help plan a better future for everyone.***
- ***Your information is confidential – forms are held in the strictest confidence.***
- ***We all need to be included – it is impossible to plan services for invisible people.***
- ***Census Day is 29th April 2001.***
- ***In the next few weeks one of our staff will deliver your Census form.***
- ***Please complete this form and post it back to us as soon as possible AFTER the 29th April.***

All staff carry an official card which includes a photograph. If someone calls at your home, please ask to see his or her official card.

A braille or large-print information leaflet is available on request.

A translation leaflet to help you complete the Census form can also be requested from the member of Census staff who delivers your form.
