

Migration Tables

Table KS25: Migration (Persons)

Table population: All persons resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Percentage of persons who lived at same address one year ago	Percentage of persons who are migrants	Percentage of persons who moved into Northern Ireland from within UK	Percentage of persons who moved into Northern Ireland from outside UK	Percentage of persons who moved within Northern Ireland (1)	Percentage of persons who moved out of Northern Ireland (2)
Northern Ireland	1685267	90.66	9.34	0.68	0.44	8.21	0.74

Notes:

- 1 Includes persons with no usual address one year before the Census which took place on 29 April 2001.
- 2 Persons whose address one year ago was within Northern Ireland but whose current address is outside Northern Ireland but within the UK, expressed as a percentage of the population of Northern Ireland. Persons in this column do not appear in the "All persons" column.

Table UV023: Migration (Persons)

Table population: All persons resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Lived at same address	No usual address one year ago	Lived elsewhere one year ago, within Northern Ireland	Inflow	Lived elsewhere outside Northern Ireland but within UK	Lived elsewhere outside UK	Outflow	Moved out of Northern Ireland but within UK
Northern Ireland	1685267	1527857	10396	128040	18974	11539	7435	12479	12479

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- 3 Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.

Table UV052: Migration (Households)

Table population: All households in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All households	Whole household lived at same address	Whole household lived elsewhere one year ago, within Northern Ireland	Inflow	Whole household lived elsewhere outside Northern Ireland but within UK	Whole household lived elsewhere outside UK	Outflow	Whole household moved out of Northern Ireland but within UK	Whole household had no usual address one year ago or partly moving household
Northern Ireland	626718	554559	36217	4024	2562	1462	2290	2290	31918

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address.
- 3 A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 4 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 5 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland. Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.

Table S376: Sex and Age by Migration (Persons)

Table population: All persons resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Lived at same address	No usual address one year ago	Lived elsewhere one year ago, within Northern Ireland	Inflow	Lived elsewhere outside Northern Ireland but within UK	Lived elsewhere outside UK	Outflow	Moved out of Northern Ireland but within UK	Net migration within the UK

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- 3 Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.
- 5 Net migration within the UK subtracts the number of persons who have moved out of Northern Ireland but within UK from the number of persons who lived elsewhere outside Northern Ireland but within UK. It does not include persons who lived elsewhere outside the UK.

Table S377: Whether Living in a Household or Communal Establishment and Age by Migration (Persons)

– two or more dependent children, youngest aged 16 to 18	2120	1997	47	–	–	–	–	–	76

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address.
- 3 A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 4 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 5 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 6 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland.
- 7 Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 8 The Household Reference Person may not be the oldest person in a household, as economic activity is given priority over age.
- 9 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). The dependent child may or may not be a child of the Household Reference Person.

Table S379: Number and Age of Dependent Children by Migration of Households

Table population: All households in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All households	Whole household lived at same address	Whole household lived elsewhere within Northern Ireland	Inflow	Whole household lived elsewhere outside Northern Ireland but within UK	Whole household lived elsewhere outside UK	Outflow	Whole household moved out of Northern Ireland but within UK	Whole household had no usual address one year ago or partly moving household

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address.
A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 4 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 5 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland.
Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 6 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).

Table S380: Household Composition by Migration of Households
Table population: All households in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All households	Whole household lived at same address	Whole household lived elsewhere within Northern Ireland	Inflow	Whole household lived elsewhere outside Northern Ireland but within UK	Whole household lived elsewhere outside Northern Ireland but outside UK	Outflow	Whole household moved out of Northern Ireland but within UK	Whole household had no usual address one year ago or partly moving household

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address.
- 3 A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 4 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 5 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 6 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland.
- 7 Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 8 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
- 9 A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- 10 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table S387: Ethnic Group by Migration (Persons)

Table population: All persons resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Lived at same address	No usual address one year ago	Lived elsewhere one year ago, within Northern Ireland	Inflow	Lived elsewhere outside Northern Ireland but within UK	Lived elsewhere outside UK	Outflow	Moved out of Northern Ireland but within UK	Net migration within the UK
All persons	1685267	1527857	10396	128040	18974	11539	7435	12479	12479	-940
White	1672698	1518280	10120	126586	17712	11164	6548	11900	11900	-736

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- 3 Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.
- 5 Net migration within the UK subtracts the number of persons who have moved out of Northern Ireland but within UK from the number of persons who lived elsewhere outside Northern Ireland but within UK. It does not include persons who lived elsewhere outside the UK.

Table S388: Community Background (Religion or Religion Brought Up In) by Migration (Persons)

Table population: All persons resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Lived at same address	No usual address one year ago	Lived elsewhere one year ago, within Northern Ireland	Inflow	Lived elsewhere outside Northern Ireland but within UK	Lived elsewhere outside UK	Outflow	Moved out of Northern Ireland but within UK

Notes:

- One year ago is one year before the Census (29 April 2001).
- Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.
- Net migration within the UK subtracts the number of persons who have moved out of Northern Ireland but within UK from the number of persons who lived elsewhere outside Northern Ireland but within UK. It does not include persons who lived elsewhere outside the UK.
- A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
- A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married), but have no spouse or partner identified in the relationship matrix.
- A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table S391: Sex and Highest Level of Qualification by Migration (Persons)

Table population: All persons aged 16 to 74 resident in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All persons	Lived at same address	No usual address one year ago	Lived elsewhere one year ago, within Northern Ireland	Inflow	Lived elsewhere outside Northern Ireland but within UK	Lived elsewhere outside UK	Outflow	Moved out of Northern Ireland but within UK	Net migration within the UK

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- 3 Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.
- 5 Net migration within the UK subtracts the number of persons who have moved out of Northern Ireland but within UK from the number of persons who lived elsewhere outside Northern Ireland but within UK. It does not include persons who lived elsewhere outside the UK.
- 6 The term 'no qualifications' describes persons without any qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, O levels, A levels, NVQ levels 1-3). The term 'Higher level' refers to qualifications of levels 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and, in England and Wales, certain professional qualifications).

Table S392: Sex and Economic Activity by Migration (Persons)

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A moving group is a group of one or more persons within a household who have moved together from the same usual address one year before Census day. This includes persons with no usual address one year ago.
- 3 Outflow is not a count of all moving groups moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 NS-SeC stands for National Statistics Socio-economic Classification.
- 5 In the NS-SeC classification all full-time students are recorded in the 'Not classified' category regardless of whether they are economically active or inactive.
- 6 For long-term unemployed, year last worked is 1999 or earlier.

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address. A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 4 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 5 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland.
- 6 Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 7 The Household Reference Person may not be the oldest person in a household, as economic activity is given priority over age.
- 8 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). The dependent child may or may not be a child of the Household Reference Person.

Table CAS379: Number of Dependent Children by Migration of Households

Table population: All households in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All households	Whole household lived at same address or within Northern Ireland one year ago	Inflow: Whole household lived elsewhere one year ago, outside Northern Ireland	Outflow: Whole household moved out of Northern Ireland but within UK	Whole household had no usual address one year ago or partly moving household
All households	626718	590776	4024	2290	31918
No dependent children	398169	375255	2472	1364	20442
One dependent child	87360	80880	685	404	5795
Two dependent children	83241	79376	589	363	3276
Three or more dependent children	57948	55265	278	159	2405

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address. A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 4 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 5 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland. Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 6 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). The dependent child may or may not be a child of the Household Reference Person.

Table CAS380: Household Composition by Migration of Households

Table population: All households in Northern Ireland and those having moved from Northern Ireland to elsewhere in the UK in the past year

	All households	Whole household lived at same address or within Northern Ireland one year ago	Inflow: Whole household lived elsewhere one year ago, outside Northern Ireland	Outflow: Whole household moved out of Northern Ireland but within UK	Whole household had no usual address one year ago or partly moving household
All households	626718	590776	4024	2290	31918
One person household	171573	168251	1421	907	1901
One family household	413706	390456	2442	1333	20808
– all pensioner	40769	40438	82	22	249
– no children	79766	71821	782	371	7163
– with dependent children	212759	202366	1523	903	8870
– all children non dependent	80412	75831	55	37	4526
Other households	41439	32069	161	50	9209

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address. A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Partly moving households includes only those partly moving households which were resident in the area on Census day (29 April 2001).
- 4 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 5 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland.
- 6 Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 7 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
- 8 A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- 9 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 Inflow is not an exact count of persons moving into Northern Ireland as it does not include persons who had no usual address one year ago who did not live within Northern Ireland.
- 3 Outflow is not a count of all persons moving out of Northern Ireland as it does not include persons who have moved outside the UK.
- 4 Persons under one year old, living in households, take the migration characteristics of their next of kin, instead of 'no usual address one year ago'.
- 5 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
- 6 A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married), but have no spouse or partner identified in the relationship matrix.
- 7 A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- 8 Limiting long-term illness covers any long-term illness, health problem or disability which limits daily activities or work.
- 9 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.
- 10 The term 'Catholic' includes those respondents who gave their religion as Catholic or Roman Catholic.

Table T34: Theme Table on Migration (Households)

5 or more persons	80019	71747	2612	255	153	102	156	156	5405

Notes:

- 1 One year ago is one year before the Census (29 April 2001).
- 2 A wholly moving household is one where all members of the household have moved from the same address. A partly moving household is where one or more members of the Census day household have moved in the last year but not all members have moved from the same address.
- 3 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other persons in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 4 Inflow is not an exact count of households moving into Northern Ireland as it does not include households where the whole household had no usual address one year ago and did not live in Northern Ireland. Outflow is not a count of all households moving out of Northern Ireland as it does not include households who have moved outside the UK.
- 5 The terms used to describe tenure are defined as:
Owner occupied: either owns outright, owns with a mortgage or loan, or pays part rent and part mortgage (shared ownership).
Social rented: rented from Northern Ireland Housing Executive, Registered Social Landlord, Housing Association, Housing Co-operative or Charitable Trust.
Private rented: rented from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
'Social rented' and 'Private rented' include living in the household rent free.
- 6 'Not classified' includes all full-time students regardless of whether they are economically active or inactive.
- 7 For long-term unemployed, year last worked is 1999 or earlier.

Table population: All persons aged 16 to 74 in employment

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km to less than 80km	80km and over	Working outside the UK	Working at an offshore installation
Northern Ireland	686644	60404	33581	140739	120151	110637	113431	67691	17335	5037	9536	7861	241

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 3 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be based on this address and the actual distance travelled to work may be much less.
- 4 1km = 0.621miles.

Table S381: Sex and Age by Distance to Place of Work

Notes:

- 'In employment' includes economically active full-time students in employment.
- 'Works elsewhere outside the UK' includes working at an offshore installation.
- The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be observed at this address and the actual distance travelled to work may be much less.
- 1km = 0.621miles.
- Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table S383: Full-time Student Status and Age by Distance to Place of Work

Table population: All persons aged 16 to 74 in employment the week before the Census

On foot	61257	-	1029	46517	6248	2133	1597	1300	641	229	728	835
Other method	5065	-	853	796	514	594	760	438	138	58	442	472

Notes:

- 1 'Works elsewhere outside the UK' includes working at an offshore installation.
- 2 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 3 1km = 0.621miles.
- 4 Distance to place of work is based on distance travelled from a persons usual residence. When an employed person spends part of the week at an address where they are not usually resident, their place of work may be closer to this address and the actual distance travelled to work may be much less.

Table S396: Sex and Hours Worked by Distance to Place of Work

Table population: All persons aged 16 to 74 in employment the week before the census

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be other than this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 Hours worked is the average number of hours worked per week for the last four weeks before the census (29 April 2001).

8. Never worked and long-term unemployed	—	—	—	—	—	—	—	—	—	—	—
Not classified: Full-time student	14481	277	123	4589	3219	2272	1489	862	603	910	137

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be observed at this address and the actual distance travelled to work may be much less.
- 5 1km = 0.62 miles.
- 6 NS-SeC stands for National Statistics Socio-economic Classification.

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 The industry categorisation is based on the 'UK Standard Industrial Classifications of Economic Activities 1992' (SIC92).
- 7 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.

- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married), but have no spouse or partner identified in the relationship matrix.
- 7 A child is any person in a household who is living with their parent(s).
- 8 A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.

Table S408: Ethnic Group by Distance to Place of Work
Table population: All persons aged 16 to 74 in employment the week before the Census

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km and over	Works elsewhere outside the UK
All persons	686644	60404	33581	140739	120151	110637	113431	67691	17335	14573	8102
White	681921	59946	33477	139319	119222	110012	112862	67357	17235	14452	8039
Mixed	842	53	30	229	159	110	132	68	24	23	14
Asian	1159	89	38	328	246	156	124	101	28	35	14
Black	479	29	14	154	91	59	48	46	12	16	10
Chinese and other ethnic group	2243	287	22	709	433	300	265	119	36	47	25

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be based on this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.

Table S410: Sex and Community Background (Religion or Religion Brought Up In) by Distance to Place of Work

Table population: All persons aged 16 to 74 in employment the week before the Census

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km and over	Works elsewhere outside the UK

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be observed at this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 The term 'Catholic' includes those respondents who gave their religion as Catholic or Roman Catholic.

Table S410A: Sex and Religion by Distance to Place of Work

Table population: All persons aged 16 to 74 in employment the week before the Census

Not a full-time student	662004	59727	33110	133107	114602	106848	110815	66214	29710	7871

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.

Table CAS385: Method of Travel to Work by Distance to Place of Work

Table population: All persons aged 16 to 74 in employment the week before the Census

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km and over	Works elsewhere outside the UK
All persons	686644	60404	33581	140739	120151	110637	113431	67691	31908	8102
Work mainly at or from home	60404	60404	—	—	—	—	—	—	—	—
Train, bus, minibus or coach	47179	—	1167	4921	14176	11763	8487	3817	2117	731
Driving a car or van, motorcycle, scooter or moped	389255	—	22305	59977	70513	75358	84471	50686	21262	4683
Car or van pool or passenger in a car or van	101005	—	7626	18613	21791	18295	17113	10916	5494	1157
On foot or bicycle	72790	—	1215	53148	8656	2986	2062	1584	2144	995
Taxi or other method	16011	—	1268	4080	5015	2235	1298	688	891	536

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 Distance to place of work is based on distance travelled from a persons usual residence. When an employed person spends part of the week at an address where they are not usually resident, their place of work may be closer to this address and the actual distance travelled to work may be much less.

Travel to Work Tables

Method of Travel

Table KS15: Travel to Work

Table population: All persons aged 16 to 74 in employment

Northern Ireland	All persons aged 16–74 in employment	686,644	Percentage of persons aged 16–74 in employment who work mainly at or from home	Percentage of persons aged 16–74 in employment who usually travel to work by:										Percentage of public transport ² users in households:	
				Train	Bus, minibus or coach	Motorcycle, scooter or moped	Driving a car or van	Passenger in a car or van	Car or van pool	Taxi	Bicycle	On foot	Other method ¹	With a car or van ³	Without a car or van ³
			8.80	0.86	6.01	0.80	55.88	8.98	5.73	1.58	0.87	9.73	0.75	69.92	29.60

Notes:

- 1 'Other method' includes no fixed place of work, working at offshore installation, working outside the UK.
- 2 For purposes of this table, public transport is defined as: train, bus, minibus or coach.
- 3 The last two columns show the number of persons who travel to work by public transport who live in a household with/without a car or van expressed as a percentage of the number of persons who travel to work by public transport. Note that these columns may not sum up to 100% as residents of communal establishments who travel to work by public transport appear in neither column.

Table S118: Number of Employed Persons and Method of Travel to Work by Number of Cars or Vans in Household

Table population: All households with at least one person working in the week before the Census

	All households	Number of cars or vans in household				
		None	1	2	3	4 or more
All households with at least one person working	395348	44922	179994	136271	25853	8308
One employed person in household	179018	33719	103326	37055	4077	841
– Driving a car or van	98668	3167	65186	26919	2844	552
– 'Other' method of travel to work	64176	29131	29294	5101	544	106
– Works at home	16174	1421	8846	5035	689	183
Two employed persons in household	166014	8950	64067	80745	10089	2163
– Both driving cars or vans	65852	222	10472	48535	5561	1062
– Both taking 'other' method of travel to work	21128	7414	10164	3118	349	83
– Both working at home	4670	102	1572	2333	466	197
– One driving a car or van, one by 'other' method	55696	849	36724	15966	1824	333
– One driving a car or van, one working at home	13858	57	2748	9014	1614	425
– One by 'other' method, one working at home	4810	306	2387	1779	275	63
Three or more employed persons in household	50316	2253	12601	18471	11687	5304
– All driving cars or vans	6834	23	304	1783	3207	1517
– All taking 'other' method of travel to work	4857	1741	2031	797	233	55
– All working at home	668	17	104	258	182	107
– Mixture of driving a car or van and 'other'	27858	323	8615	12151	5048	1721
– Mixture of driving a car or van and working at home	4385	18	329	1191	1685	1162
– Mixture of 'other' and working at home	1730	111	614	632	275	98
– Mixture of driving a car or van, 'other' and working at home	3984	20	604	1659	1057	644

Notes:

- 1 Driving a car or van includes sharing driving and car-pooling.
- 2 'Other' in method of travel is any other means of travel to work.
- 3 The number of cars or vans in a household only includes a company car or van if it is available for private use.

Notes:

- 1 NS-SeC stands for the National Statistics Socio-economic Classification.
- 2 In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or inactive.
- 3 For long-term unemployed, year last worked is 1999 or earlier.
- 4 'Other method' includes no fixed place of work, working at an offshore installation, working outside the UK.

Notes:

- 1 'Other method' includes no fixed place of work, working at offshore installation, working outside the UK.

Table CAS118: Number of Employed Persons and Method of Travel to Work by Number of Cars or Vans in Household

Table population: All households with at least one person working in the week before the Census

	All households	Number of cars or vans in household		
		None	1	2 or more
All households with at least one person working	395348	44922	179994	170432
One employed person in household	179018	33719	103326	41973
– Driving a car or van	98668	3167	65186	30315
– 'Other' method of travel to work	64176	29131	29294	5751
– Works at home	16174	1421	8846	5907
Two employed persons in household	166014	8950	64067	92997
– Both driving cars or vans	65852	222	10472	55158
– Both taking 'other' method of travel to work	21128	7414	10164	3550
– Both working at home	4670	102	1572	2996
– One driving a car or van, one by 'other' method	55696	849	36724	18123
– One driving a car or van, one working at home	13858	57	2748	11053
– One by 'other' method, one working at home	4810	306	2387	2117
Three or more employed persons in household	50316	2253	12601	35462
– All driving cars or vans	6834	23	304	6507
– All taking 'other' method of travel to work	4857	1741	2031	1085
– All working at home	668	17	104	547
– Mixture of driving a car or van and 'other'	27858	323	8615	18920
– Mixture of driving a car or van and working at home	4385	18	329	4038
– Mixture of 'other' and working at home	1730	111	614	1005
– Mixture of driving a car or van, 'other' and working at home	3984	20	604	3360

Notes:

- 1 Driving a car or van includes sharing driving and car-pooling.
- 2 'Other' in method of travel is any other means of travel to work.
- 3 The number of cars or vans in a household only includes a company car or van if it is available for private use.

Table CAS342: NS-SeC by Method of Travel to Work

Table population: All persons aged 16 to 74 in employment the week before the Census

	All persons	Work mainly at or from home	Train, bus, minibus or coach	Driving a car or van, motorcycle, scooter or moped	Car or van pool or passenger in a car or van	On foot or bicycle	Taxi or other method
All persons	686644	60404	47179	389255	101005	72790	16011
1. Higher managerial and professional occupations	58372	5256	2720	41591	4913	3326	566
2. Lower managerial and professional occupations	169839	8934	8606	120534	19130	10468	2167
3. Intermediate occupations	90680	3103	10731	52238	14477	8405	1726
4. Small employers and own account workers	79138	32971	588	36124	4944	2762	1749
5. Lower supervisory and technical occupations	67185	2265	3743	41147	11540	6973	1517
6. Semi-routine occupations	103569	3780	9722	49282	18060	19553	3172
7. Routine occupations	93221	3418	7528	42385	20462	15485	3943
8. Never worked and long-term unemployed	—	—	—	—	—	—	—
Not classified: Full-time student	24640	677	3541	5954	7479	5818	1171

Notes:

- 1 NS-SeC stands for National Statistics Socio-economic Classification.
- 2 'Not classified: Full-time student' includes all full-time students regardless of whether they are economically active or inactive.
- 3 For long-term unemployed year last worked is 1999 or earlier.
- 4 'Other method' includes no fixed place of work, working at an offshore installation, working outside the UK.

Table CAS350: Age by Method of Travel to Work

Table population: All persons aged 16 to 74 working in the week before the Census

	All persons	Work mainly at or from home	Train, bus, minibus or coach	Driving a car or van, motorcycle, scooter or moped	Car or van pool or passenger in a car or van	On foot or bicycle	Taxi or other method
All persons	686644	60404	47179	389255	101005	72790	16011
16 to 24	114227	3949	15433	40195	30050	19480	5120

Notes:

- 'In employment' includes economically active full-time students in employment.
- A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- A child is any person in a household who is living with their parent(s).
- A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married), but have no spouse or partner identified in the relationship matrix.
- The term 'Catholic' includes those respondents who gave their religion as Catholic or Roman Catholic.
- Limiting long-term illness covers any long-term illness, health problem or disability which limits daily activities or work.
- The term 'no qualifications' describes persons without any qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's O levels, A levels, NVQ levels 1-3). The term 'Higher level' refers to qualifications of levels 4 and above (i.e. first degrees, higher degrees and NVQ levels 4 and 5, HND).
- 'Not classified: Full-time student' includes all full-time students regardless of whether they are economically active or inactive.
- The occupation classification is SOC2000 (Standard Occupation Classification).
- The industry categorisation is based on the 'UK Standard Industrial Classifications of Economic Activities 1992' (SIC92).
- 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.

Workplace Population Tables

Table UV077: Industry (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	A.B. Agriculture, hunting, forestry and fishing	C,D,E. Mining and quarrying; manufacturing; electricity, gas and water supply	F. Construction	G. Wholesale and retail trade, repairs	H. Hotels and restaurants	I. Transport, storage and communications	J. Financial intermediaries	K. Real estate, renting and business activities	L. Public administration and defence, social security	M. Education	N. Health and social work	O,P,Q. Other
Northern Ireland	675921	20473	103068	60777	113421	30535	36133	19856	52621	62565	59883	86831	29758

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 3 The industry categorisation is based on the 'UK Standard Industrial Classifications of Economic Activities 1992' (SIC92).
- 4 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.

Table UV078: Approximated Social Grade (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	AB. Higher and intermediate managerial/ administrative/ professional	C1. Supervisory, clerical, junior managerial/ administrative/ professional	C2. Skilled manual workers	D. Semi-skilled and unskilled manual workers	E. On state benefit, unemployed, lowest grade workers	Communal establishment resident
Northern Ireland	675921	142579	214070	156853	148469	8160	5790

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 3 Social Grade is a socio-economic classification used by the Market Research and Marketing Industries, most often in the analysis of spending habits and consumer attitudes. Although it is not possible to allocate Social Grade precisely from information collected by the 2001 Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social Grade. Persons are classified by the approximated Social Grade of their Household Reference Person (HRP) which is based on occupation. For households where the HRP is not aged 16–74 the Social Grade of the HRP, and all persons in the household has been estimated using household tenure.

Table UV079: Occupation (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	1. Managers and senior officials	2. Professional occupations	3. Associate professional and technical occupations	4. Administrative and secretarial occupations	5. Skilled trades occupations	6. Personal service occupations	7. Sales and customer service occupations	8. Process, plant and machine operatives	9. Elementary occupations
Northern Ireland	675921	71095	71003	83774	98953	105385	45201	49922	70427	80161

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 3 The occupation classification is SOC2000 (Standard Occupation Classification).

Table UV086: Method of Travel to Work (Daytime Population)

Table population: All daytime population aged 16 to 74

	All persons	Works mainly at or from home	Train	Bus, minibus or coach	Motorcycle, scooter or moped	Driving a car or van	Passenger in a car or van	Car or van pool	Taxi	Bicycle	On foot	Other	Not currently working
Northern Ireland	1176360	60404	5410	40652	5466	377606	60966	38581	10776	5827	65777	4460	500435

Notes:

- 1 'Other method' includes working outside the UK and using the underground, metro, light rail or tram while working outside NI but within UK.
- 2 Day time population comprises those persons who live and work in the area (or do not work) and those persons who live outside the area (but within the UK) and work inside the area. It excludes those persons who live in the area but work outside the area. No fixed place is counted as if working in the area.
- 3 This table includes persons living in Scotland and studying in Northern Ireland.

Table UV087: Method of Travel to Work (Resident Population)

Table population: All persons resident in the area aged 16 to 74

	All persons	Work mainly at or from home	Train	Bus, minibus or coach	Motorcycle, scooter or moped	Driving a car or van	Passenger in a car or van	Car or van pool	Taxi	Bicycle	On foot	Other method	Not currently working
Northern Ireland	1187079	60404	5920	41259	5527	383728	61670	39335	10873	5959	66831	5138	500435

Notes:

1 'Other method' includes no fixed place of work, working at an offshore installation, working outside the UK.

Table UV118: Sex (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Males	Females
Northern Ireland	675921	370240	305681

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.

Table UV119: Age (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	16 to 19	20 to 24	25 to 34	35 to 49	50 to pensionable age	Pensionable age to 74
Northern Ireland	675921	38858	73093	179398	246585	119621	18366

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 3 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table UV120: Community Background (Religion or Religion Brought Up In) (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Catholic	Protestant and Other Christian (including Christian related)	Other religions and philosophies	None
Northern Ireland	674624	269705	387266	2819	14834

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 In this table, the workplace population in an area does not include those persons working in the area who live outside Northern Ireland.
- 3 The term 'Catholic' includes those respondents who gave their religion as Catholic or Roman Catholic.

Table UV121: NS-SeC (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	1. Higher managerial and professional occupations	1.1. Large employers and higher managerial occupations	1.2. Higher professional occupations	2. Lower managerial and professional occupations	3. Intermediate occupations	4. Small employers and own account workers	5. Lower supervisory and technical occupations	6. Semi-routine occupations	7. Routine occupations	8. Never worked and long-term unemployed	Not classified
Northern Ireland	675921	56615	19263	37352	166239	88354	78369	66043	102653	92182	-	24466

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 3 NS-SeC stands for National Statistics Socio-economic Classification.
- 4 'Not classified' includes all full-time students regardless of whether they are economically active or inactive.

Table UV122: Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km to less than 80km	80km and over
Northern Ireland	675921	60404	33581	140739	120151	110637	113431	67691	17316	5030	6941

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 3 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 4 1km = 0.621miles.
- 5 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.

Table S382: Sex and Age by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km to less than 80km	80km and over

Notes:

- 'In employment' includes economically active full-time students in employment.
- 'Works elsewhere outside the UK' includes working at an offshore installation.
- The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 1km = 0.621miles.
- In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table S384: Full-time Student Status and Age by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km to less than 80km	80km and over
All persons	675921	60404	33581	140739	120151	110637	113431	67691	17316	5030	6941
Full-time students	24466	677	471	7632	5549	3789	2616	1477	889	411	955

Pensionable age to 74	18366	5202	651	4399	2846	2209	1838	849	204	72	96

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- 7 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

Table S386: Method of Travel to Work by Distance to Place of Work for Employed Persons Who Are Not Full-time Students (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area the week before the Census who are not full-time students

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km to less than 80km	80km and over
All persons	651455	59727	33110	133107	114602	106848	110815	66214	16427	4619	5986
Work mainly at or from home	59727	59727	-	-	-	-	-	-	-	-	-
Train, bus, minibus or coach	42539	-	1123	4477	13079	10863	7898	3570	807	229	493
Motorcycle, scooter or moped	5218	-	124	853	1383	1253	1065	425	69	19	27
Driving a car or van	371924	-	22035	58040	67837	72988	82449	49684	11679	3304	3908
Passenger in a car or van	54557	-	5036	10815	13090	10478	8656	4628	1219	321	314
Car or van pool	37600	-	2366	6141	6700	6421	7602	5820	1770	414	366
Taxi	9681	-	399	2973	4036	1458	466	206	62	23	58
Bicycle	5583	-	145	2495	1715	660	322	143	42	18	43
On foot	60232	-	1029	46517	6248	2133	1597	1300	641	228	539
Other method	4394	-	853	796	514	594	760	438	138	63	238

Notes:

- 1 'Works elsewhere outside the UK' includes working at an offshore installation.
- 2 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 3 1km = 0.621miles.
- 4 'Other method' includes working outside the UK and using the underground, metro, light rail or tram while working outside NI but within UK.
- 5 The workplace population in an area does not include those persons working in the area who live outside the UK.
- 6 Distance to place of work is based on distance travelled from a persons usual residence. When an employed person spends part of the week at an address where they are not usually resident, their place of work may be closer to this address and the actual distance travelled to work may be much less.

Table S397: Sex and Hours Worked by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km and over	Lives outside of Northern Ireland but within UK

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.62 miles.
- 6 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- 7 The industry categorisation is based on the 'UK Standard Industrial Classifications of Economic Activities 1992' (SIC92).
- 8 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.

Table S403: Sex and Occupation by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km and over	Lives outside of Northern Ireland but within UK

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- 7 The occupation classification is SOC2000 (Standard Occupation Classification).

Table S405: Sex and Employment Status by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- 7 A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married), but have no spouse or partner identified in the relationship matrix.
- 8 A family consists of a couple (married or cohabiting) with or without children, or a lone parent and their children. It also includes a married or cohabiting couple with their grandchildren or a lone grandparent with his or her grandchildren, if there is no parent in the intervening generation in the household. A family will also include step-children when their parent is part of the couple.
- 9 A child is any person in a household who is living with their parent(s).

Table S409: Ethnic Group by Distance to Place of Work (Workplace Population)

Table population: All persons aged 16 to 74 in employment in the area

	All persons	Work mainly at or from home	No fixed place of work	Less than 2km	2km to less than 5km	5km to less than 10km	10km to less than 20km	20km to less than 40km	40km to less than 60km	60km and over	Lives outside of Northern Ireland but within UK

Not resident in Northern Ireland	396	—	—	—	—	—	—	—	—	—	396

Notes:

- 1 'In employment' includes economically active full-time students in employment.
- 2 'Works elsewhere outside the UK' includes working at an offshore installation.
- 3 The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 4 For full-time students their place of residence is their term-time address and their distance to place of work is based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the actual distance travelled to work may be much less.
- 5 1km = 0.621miles.
- 6 In this table, the workplace population in an area does not include those persons working in the area who live outside the UK.
- 7 The term 'Catholic' includes those respondents who gave their religion as Catholic or Roman Catholic.

Table T40: Theme Table on Resident, Workplace and Daytime Population

Table population: All persons aged 16 to 74 who are either resident in Northern Ireland or work in Northern Ireland

	Total 'resident' population (A+B+C+E)	A. Lives in Northern Ireland and works outside Northern Ireland but within UK	B. Lives in Northern Ireland and works outside UK	C. Lives and works in Northern Ireland	D. Lives outside Northern Ireland but within UK and works inside Northern Ireland	E. Lives in Northern Ireland and does not work	Total 'workplace' population (C+D)	Total 'daytime' population (C+D+E)

Notes:

- 'Workplace population' relates to those who work within the area. 'Daytime' population relates to those who work within the area or who live in the area but do not work.
- The 'workplace' population aged 16 to 74 and 'daytime population' aged 16 to 74 do not include those persons working in Northern Ireland who live outside the UK.
- 'Lives in Northern Ireland and works outside UK' includes persons who work at an offshore installation; 'Lives and works in Northern Ireland' includes persons who work mainly at or from home and those with no fixed place of work.
- For full-time students their place of residence is their term-time address and they are categorised based on this address. When a full-time student spends part of the week at their 'home' or 'vacation' address, their place of work may be closer to this address and the distance travelled to work may be much less.
- The workplace population includes some economically inactive or unemployed full-time students living in Scotland and studying in Northern Ireland.
- The distance to place of work is a calculation of the straight line distance between the postcode of place of residence and postcode of workplace.
- 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.
- 'Not classified: Full-time student' includes all full-time students regardless of whether they are economically active or inactive.
- For long-term unemployed, year last worked is 1999 or earlier.
