

Population Estimates (2019)

Antrim & Newtownabbey

Local Government District

Components of Population Change, mid-2018 to mid-2019:

- Over the year ending mid-2019, the **population** increased by 1,000 people (0.7 per cent) to 143,500 (70,000 males, and 73,500 females).
- This can be attributed to natural growth of 500 people (i.e. more births than deaths), a net gain of 700 people due to migration, and a loss of 200 people due to other changes.
- The **population aged 65 and over** increased by 500 people (2.1 per cent) to 24,100. The **working age population** increased by 400 people (0.4 per cent) to 89,500 people. The number of **children** increased by 100 people (0.4 per cent) to 29,900.

Population by age

Age	Mid-Year			Population change			
	2009	2018	2019	Year ending mid-2019		Decade ending mid-2019	
				Number	%	Number	%
0-15	29,100	29,800	29,900	100	0.4%	900	3.0%
16-64	89,000	89,100	89,500	400	0.4%	500	0.5%
65 and over	19,400	23,600	24,100	500	2.1%	4,700	24.5%
65-84	17,300	20,800	21,200	400	1.8%	3,900	22.4%
85 and over	2,100	2,800	2,900	100	4.2%	900	41.6%
All Ages	137,400	142,500	143,500	1,000	0.7%	6,100	4.4%

Population figures have been rounded to the nearest 100 and percentages to the nearest 1 decimal place. Figures may not sum due to rounding.

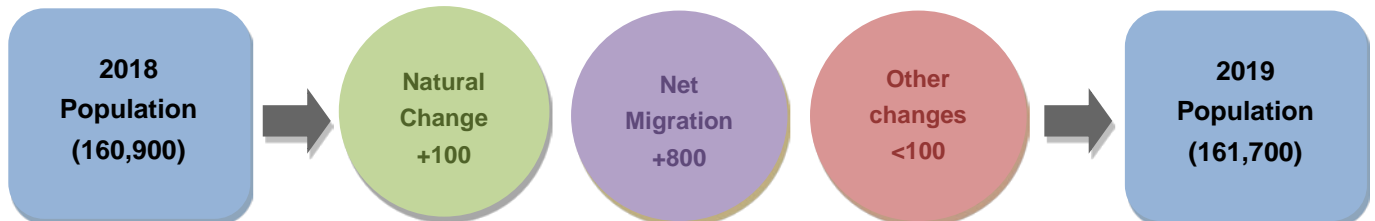

Population Estimates (2019)

Ards & North Down

Local Government District

Components of Population Change, mid-2018 to mid-2019:

- Over the year ending mid-2019, the **population** increased by 900 people (0.5 per cent) to 161,700 (78,500 males, and 83,300 females).
- This can be attributed to a gain of 100 people due to natural change (i.e. more births than deaths), a net gain of 800 people due to net migration, and negligible change due to other changes.
- The **population aged 65 and over** increased by 800 people (2.3 per cent) to 34,500. The **working age population** over the year remained stable at 97,000 people. Likewise, the number of **children** experienced little change over the year (30,200 people).

Population by age

Age	Mid-Year			Population change			
	2009	2018	2019	Year ending mid-2019		Decade ending mid-2019	
				Number	%	Number	%
