## Background

Information on **overseas visitors** to NI is collected through the Northern Ireland Passenger Survey (NIPS). The survey methodology may be viewed at: <http://www.detini.gov.uk/deti-stats-index/tourism-statistics/stats-overseas-visitors/stats-nips-methodology.htm>

**Overseas visitors** include anyone reporting their country of residence as outside Northern Ireland or Republic of Ireland. The estimates published in this report refer to those overseas visitors who stayed at least one night in Northern Ireland and exited Northern Ireland via one of the air or sea ports.

## Sampling variability

The NIPS is a sample survey and estimates obtained from it are subject to sampling variability. Table 3 details the confidence intervals of the visitor estimates by country of residence.

**Table 3 Country of residence and confidence intervals for visitor estimates January – August 2012**

Country of Residence	95% Confidence Interval	
	Visitors	Year on year % change
<b>Total</b>	<b>+/- 6%</b>	<b>+/- 9%</b>
Great Britain	+/- 7%	+/- 10%
Other European	+/- 13%	+/- 16%
North America	+/- 12%	+/- 18%
Other overseas	+/- 14%	+/- 20%

Data during the earlier parts of the year are more likely to exhibit larger variations due to smaller counts for each of the cells and the impact of unusual events.

## Rounding

Figures in the tables have been rounded to the nearest thousand and may not add to the figure shown as the total. Year on year percentage change is based on the unrounded figures.

## Data revisions

Tourism estimates are produced to provide timely data to the tourism industry and Government policy makers. The estimates may be subject to revision due to improvements to the survey/analysis methodology or the inclusion of data returned after the publication date. The figures in this document are the most up-to-date available at the time of publication.
