TOURISM STATISTICS

STATISTICS BULLETIN

Background

Information on **overseas visitors** to NI is collected through the Northern Ireland Passenger Survey (NIPS). The survey methodology may be viewed at:

<http://www.detini.gov.uk/deti-stats-index/tourism-statistics/stats-overseas-visitors/stats-nips-methodology.htm>

Overseas visitors include anyone reporting their country of residence as outside Northern Ireland or Republic of Ireland. The estimates published in this report refer to those overseas visitors who stayed at least one night in Northern Ireland and exited Northern Ireland via one of the air or sea ports.

Events affecting travel

During April and May 2010, UK and Irish airspace was closed at times due to the ash cloud created by the Eyjafjallajökull volcano in Iceland. This had an effect on the number of flights arriving and departing from NI and the number of ferry passengers during this period.

Sampling variability

The NIPS is a sample survey and estimates obtained from it are subject to sampling variability. Table 3 details the confidence intervals of the visitor and expenditure estimates by country of residence for January – June 2011.

Table 3: Confidence intervals (95%) for visitor and expenditure estimates by country of residence January – June 2011
