Provisional results from the Northern Ireland (NI) Passenger Survey January-May 2012

During January-May 2012, an estimated 352,000 overseas visitors stayed at least one night in NI and exited through a NI port, a decrease of 9% compared with the same period in 2011 (table 1).

Table 1: Estimated overseas visitors to NI (exiting through a NI port) by country of residence, January-May 2011, 2012

Country of residence	Visitors (000s)		
	2011	2012	% change
Great Britain	333	296	-11%
Other European	29	26	-9%
North America	14	15	7%
Other overseas	13	15	18%
Total	388	352	-9%

Note: Percentage change based on unrounded figures.

The estimated number of visitors visiting friends/relatives decreased by 10%, as did the number on holiday in NI (-10%) in January-May 2012 compared with the same period in 2011 (table 2).

Table 2: Estimated overseas visitors to NI (exiting through a NI port) by reason for visit, January-May 2011, 2012

Reason for visit	Visitors (000s)		
	2011	2012	% change
Visiting friends/relatives	227	204	-10%
Holiday/short break/leisure/recreation	72	65	-10%
Business	76	75	-1%
Other	13	8	-40%
Total	388	352	-9%

Note: Percentage change based on unrounded figures.

TOURISM STATISTICS

Background

Information on **overseas visitors** to NI is collected through the Northern Ireland Passenger Survey (NIPS). The survey methodology may be viewed at:

<http://www.detini.gov.uk/deti-stats-index/tourism-statistics/stats-overseas-visitors/stats-nips-methodology.htm>

Overseas visitors include anyone reporting their country of residence as outside Northern Ireland or Republic of Ireland. The estimates published in this report refer to those overseas visitors who stayed at least one night in Northern Ireland and exited Northern Ireland via one of the air or sea ports.

Sampling variability

The NIPS is a sample survey and estimates obtained from it are subject to sampling variability. Table 3 details the confidence intervals of the visitor estimates by country of residence.

Table 3: Country of residence and confidence intervals for visitor estimates January – April 2012

Country of Residence	95% Confidence Interval
Great Britain	+/- 12%
Other European	+/- 22%
North America	+/- 22%
Other overseas	+/- 27%

Data during the earlier parts of the year are more likely to exhibit larger variations due to smaller counts for each of the cells and the impact of unusual events.

Data revisions

Tourism estimates are produced to provide timely data to the tourism industry and Government policy makers. The estimates may be subject to revision due to improvements to the survey/ analysis methodology or the inclusion of data returned after the publication date. The figures in this document are the most up-to-date available at the time of publication.
