# STATISTICS BULLETIN

## Background

Information on **overseas visitors** to NI is collected through the Northern Ireland Passenger Survey (NIPS). The survey methodology may be viewed at:

<http://www.detini.gov.uk/deti-stats-index/tourism-statistics/stats-overseas-visitors/stats-nips-methodology.htm>

**Overseas visitors** include anyone reporting their country of residence as outside Northern Ireland or Republic of Ireland. The estimates published in this report refer to those overseas visitors who stayed at least one night in Northern Ireland and exited Northern Ireland via one of the air or sea ports.

## Events affecting travel

During April and May 2010, UK and Irish airspace was closed at times due to the ash cloud created by the Eyjafjallajökull volcano in Iceland. This had an affect on the number of flights arriving and departing from NI and the number of ferry passengers during this period.

## Sampling variability

The NIPS is a sample survey and estimates obtained from it are subject to sampling variability. Table 3 details the confidence intervals of the visitor estimates by country of residence for January – November 2011.

**Table 3: Country of residence and confidence intervals for visitor estimates January – November 2011**

<b>Country of Residence</b>	<b>95% Confidence Interval</b>
Great Britain	+/- 6%
Other European	+/- 9%
North America	+/- 11%
Other overseas	+/- 9%

## Data revisions

Tourism estimates are produced to provide timely data to the tourism industry and Government policy makers. The estimates may be subject to revision due to improvements to the survey/ analysis methodology or the inclusion of data returned after the publication date. The figures in this document are the most up-to-date available at the time of publication.
