Thank you for taking part in NISRA's COVID-19 Opinion Survey.

To understand more about the coronavirus (COVID-19), the UK Government and the Northern Ireland Executive have asked the Office for National Statistics and the University of Oxford to run a new study into the virus.

The results from this study will be used to help work out the best way to manage the COVID-19 pandemic in the UK and Northern Ireland.

The study aims to work out how many people have had COVID-19, either with or without symptoms. You may have already seen or heard some results on the news from the pilot study which is currently being carried out in England.

What does the study involve?

Anyone who takes part in the NISRA COVID-19 Opinion Survey is being given the opportunity to participate in the NI Covid-19 Infection Survey.

Who should take part? We would like you, and anyone else in your household, including children aged 2 years and over to take part. Participation in this study is entirely voluntary. Even if you do not want to take part, anyone else in your household can do so if they wish, so please share this information with the whole household. As a token of appreciation, everyone who does the first part of the study will be offered a £50 voucher. Further incentives will be offered over the course of the study. I can record now if you want to be part of this Study.

If you do, NISRA will provide your contact details to ONS who will write to you directly and provide you with all of the information you need to know about the study.

Please be assured that the information you provide is protected by law and will be treated as confidential. Thank you for your time

We may in the future invite you to take part in other surveys, either carried out by ourselves or one of our research partners. If we do, we will write to inform you and you will be free to decide at the time whether you want to take part.
