Yes

If you selected 'Yes', please tell us which additional geographies you need census statistical outputs to align with. Please also explain why you need this, including the analysis that you plan to do and the value of undertaking this research:

It would be still useful to have census outputs at the old 26 council level as the HSCT catchment areas are mapped to be co-terminus with these and don't map to the new p council areas...e.g within the NHST the 10 former councils map to 4 "localities" within the trust catchment area, i.e. Antrim/Ballymena, Causeway (Ballymoney, Coleraine & Moyle), Mid Ulster (Cookstown/Magherafelt) and East Antrim (Carrickfergus, Larne & Newtownabbey)...but for example in the new council setup "Causeway Coast and Glens council" includes the former council areas as Ballymoney, Coleraine, Moyle AND LIMAVADY (which is in the WHST catchment area).

Mapping to the former 26 councils would allow us to continue to collate results to "locality" area within the Trust.
