

NORTHERN IRELAND CONSTRUCTION OUTPUT STATISTICS

METHODOLOGICAL NOTICE

Users are advised that the estimates of the Northern Ireland Construction Output Statistics for Quarter 2 of 2016 (1st April to 30th June) due to be published on the 13th of October 2016 will incorporate the re-referencing of the figures to 2013 = 100 to align with the Office for National Statistics Construction Outputs Statistics.

This change will result in changes to the level of construction output but growth rates should be maintained.

It is standard practice for NISRA to pre-announce planned and unplanned revisions at least one month in advance of their release.
