## **GENERAL NOTES**

The figures on births and deaths have been compiled from returns furnished by the local registrars. The figures final figures for each year will be found in the Registrar General's Annual Report.

### **Births, stillbirths and deaths**

Figures relate to those registered during the quarter under review. A birth or stillbirth is assigned to the usual place of residence of mother and excludes births and stillbirths to non-Northern Ireland residents. Deaths are assigned to the usual residence of the deceased, if such residence is within Northern Ireland; otherwise to the place of occurrence and non-resident deaths are included in the figures.

### **Birth, stillbirth and death rates**

Rates for 2000 and 2001 data are calculated on the estimated home population as at 30<sup>th</sup> June 2000, and the 30<sup>th</sup> of June 2001 respectively. All quarter rates have been annualised by multiplying the rates by 4.

### **Stillbirth**

### **Infant mortality**

The General Register Office in Northern Ireland changed from the ninth (ICD9) to the tenth (ICD10) edition from January 2001. Data in this bulletin prior to 2001 will be based on ICD9 and after 2001 will be based on ICD10. The ICD codes used for the causes of death in Tables 1 and 3 are as follows:
