

# Population Estimates (2022)

## Antrim & Newtownabbey

### Local Government District

#### Components of Population Change, mid-2021 to mid-2022:

- Over the year ending mid-2022, the **population** increased by 300 people (0.2 per cent) to 146,100 (74,400 females and 71,800 males).
- This can be attributed to natural growth of 200 people (i.e. more births than deaths), a gain of 100 people due to migration, and negligible other changes.
- The **population aged 65 and over** increased by 400 people (1.7 per cent) to 25,800. The **working age population** decreased by 100 people (-0.1 per cent) to 91,200 people. The number of **children** decreased by 100 people (-0.2 per cent) to 29,200.

| <b>All Ages</b> | 139,400       | 145,900       | 146,100       | 300                               | 0.2%                                | 6,800                             | 4.8%                                |

Population figures have been rounded to the nearest 100 and percentages to the nearest 1 decimal place. Figures may not sum due to rounding.

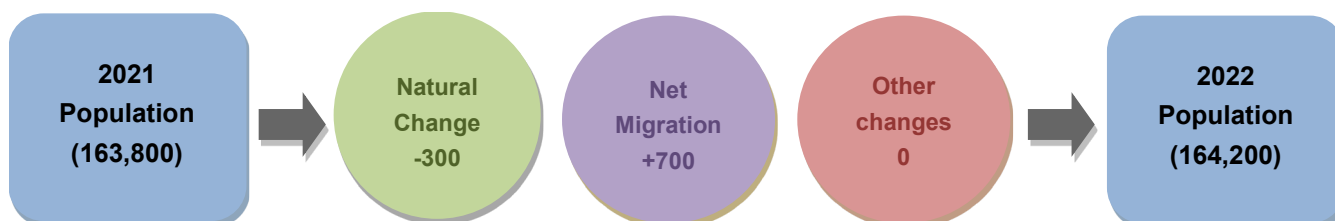

## Population Estimates (2022)

### Ards & North Down

### Local Government District

#### Components of Population Change, mid-2021 to mid-2022:

- Over the year ending mid-2022, the **population** increased by 400 people (0.2 per cent) to 164,200 (84,300 females and 80,000 males).
- This can be attributed to a loss of 300 people due to natural change (i.e. more deaths than births), a gain of 700 people due to net migration, and negligible other changes.
- The **population aged 65 and over** increased by 700 people (1.9 per cent) to 37,200. The **working age population** decreased by 300 people (-0.3 per cent) to 97,400 people. The number of **children** increased by 0.1 per cent to 29,700 people.

## Population Estimates (2022)

### Derry & Strabane

### Local Government District

#### Components of Population Change, mid-2021 to mid-2022:

- Over the year ending mid-2022, the **population** remained stable at 150,800 (77,300 females and 73,600 males).
- This can be attributed to natural growth of 500 people (i.e. more births than deaths), a net loss of 500 people due to net migration, and negligible other changes.
- The **population aged 65 and over** increased by 400 people (1.8 per cent) to 24,800. There was a decrease of 500 people in the **working age population** (-0.5 per cent) to 94,100. The number of **children** increased by 100 people (0.2 per cent) to 32,000.

#### Population by age

## Population Estimates (2022)

### Fermanagh & Omagh

### Local Government District

#### Components of Population Change, mid-2021 to mid-2022:

- Over the year ending mid-2022, the **population** increased by 100 people (0.1 per cent) to 117,000 (58,600 females and 58,400 males).
- This can be attributed to natural growth of 200 people (i.e. more births than deaths) and a loss of 200 people due to net migration, and negligible other changes.
- The **population aged 65 and over** increased by 500 people (2.3 per cent) to 22,100. There was a decrease of 500 people in the **working age population** (-0.7 per cent) to 70,000. The number of **children** experienced little change over the year and remained at 24,800.
